THE FALL OF SUMTER.

Gen. Gillmore Reports Its Demolition.

His Batteries at Distances Varying from 3,330 to 4,240 Yards.

FIRE OPENED UPON CHARLESTON.

Beauregard's Opinion of the Missiles Employed.

A Detailed Report by Col. Turner of the Damage Done to Sumter.

REPORT OF BRIG.-GEN. GILLMORE.

HEADQUARTERS DEPARTMENT OF THE SOUTH, MORRIS ISLAND, S. C., Aug. 24, 1863.

Major-Gen. H. W. Halleck, General-in-Chief, U. S. A., Washington, D. C:

SIR: I have the honor to report the practical demolition of Fort Sumter as the result of our seven days' bombardment of that work, including two days of which a powerful northeasterly storm most seriously diminished the accuracy and effect of our fire.

Fort Sumter is to-day a shapeless and harmless mass of ruins. My Chief of Artillery, Col. J. N. TURNER, reports its destruction so far complete that it is no longer of any avail in the defences of Charleston. He also says that by a longer fire it could be made more completely a ruin and a mass of broken masonry, but could scarcely be more powerless for the defence of the harbor.

My breaching batteries were located at distances varying between 3,330 and 4,240 yards from the work, and now remain as efficient as ever. I deem it unnecessary at present to continue their fire upon the ruins of Sumter.

I have also, at great labor, and under a heavy fire from James Island, established batteries on my left, within effective range of the heart of Charleston, and have opened with them, after giving Gen. BEAUREGARD due notice of my intention to do so.

My notification to Gen. BEAUREGARD, his reply thereto, with the threat of retaliation, and my rejoinder, have been transmitted to the Army Headquarters.

The projectiles from my batteries entered the city, and Gen. BEAUREGARD himself designates them as the most destructive missiles ever used in war.

The report of my Chief of Artillery, and an accurate sketch of the ruins of Sumter, taken at 12 M. yesterday, six hours before we ceased firing, are herewith transmitted. Very respectfully, your obedient servant,

Q. A. GILLMORE,
Brigadier-General Commanding.

REPORT OF COL. J. W. TURNER.

OFFICE OF CHIEF OF ARTILLERY, DEPARTMENT OF THE SOUTH, MORRIS ISLAND, S. C., AUG. 23.

GENERAL: I have the honor to report the effect that our breaching batteries have had upon Fort Sumter, and the condition of that work to-night.

At the close of the seven days' bombardment the gorge wall of the Fort is almost a complete mass of ruins for the distance of several casemates. About midway on this face the ramparts are removed nearly, and in places quite to the arches; and, but for the sa [illegible] which the casemates were filled, and which has served to sustain the broken arches and masses of masonry, it would have long since been entirely cut away, and with it the arches to the floor of the second tier of casemates. The debris on this front now forms a rampart, reaching as high as the floor of these casemates. The parapet walls of the two northeasterly faces is completely carried away, a small portion only being left in the angle made with the gorge wall, and the ramparts of these faces are also a total ruin.

Quite one-half of our projectiles seem to have struck the parade and parapet of these two faces, and judging from the effect that they have had upon the gorge wall, within our observation, the destruction of the masonry on these two sides must be very great, and I am of the opinion that nearly every arch in these fronts must be broken in. But one gun remains in position on these two fronts, and this is in the angle of the gorge, and I think unserviceable. The ruin extends around, taking in the northeastern face as far as can be seen.

A portion of this face, adjoining the angle it makes with the southeasterly face is concealed, but from the great number of missiles which have struck in this angle during the last two days, it cannot be otherwise than greatly damaged, and I do not think any guns can be left on this face in a serviceable condition. The ramparts in this angle, as well as in the southeasterly face, must be plowed up and greatly shattered.

The parapet on this latter face is torn off in many places, as we can see, and I hardly think the platforms of the remaining guns on this face could have escaped.

With the assistance of a powerful glass, I cannot determine that more than one of these guns can be used, and it has been dismounted once. The carriages of the others are evidently more or less shattered, and such is the parapet and parade in the immediate vicinity of this gun, that it probably could not be served for any length of time.

In fine, the destruction of the fort is so far complete, that it is to-day of no avail in the defence of the harbor of Charleston.

By a longer fire it can be made more completely a ruin and a mass of broken masonry, but could scarcely be more powerless for the defence of the harbor.

I therefore respectfully submit my opinion that a continuance of our fire is no longer necessary, as giving us no ends adequate for the consumption of our resources.

Very respectfully, your obedient servant,

JOHN N. TURNER,
Colonel and Chief of Artillery.

Reported Occupation of Sumter and Wagner.

FORTRESS MONROE, Friday, Aug. 28.

The gunboat *Western World*, Capt. GREGORY, arrived this morning from off Wilmington, and reports the arrival there of the United States steamer *Florida*, from Charleston, with the intelligence that the Union forces occupied Forts Sumter and Wagner on Monday last.

[Our advices direct from Charleston by the *Arago*, are to Tuesday. They make no mention of the occupation of either Sumter or Wagner by our forces.—ED. TIMES.]

Incidents of the Siege.

The following items are from the correspondence of the Baltimore *American*:

I am sorry to learn that the 300-pounder Parrott burst yesterday after the seventh fire. It was fired but seven times; the first shot fell short, but the other six went square through Sumter, exploding inside. These six shells changed the whole face of the ruins, lowering the mass of debris at least twenty feet, and throwing open the whole rear of the fort. The shells now are entering through the rear wall and striking against the casemates of the front wall, some of them passing entirely through.

The *Mahaska*, whilst engaged with the *Cimerone*, *Ladona*, *Ottawa* and *Dai Ching*, also exploded her 10-inch rifle on Friday afternoon. No one was injured.

Both of the Whitworth guns of the Naval battery are also disabled. The finest one showed symptoms of bursting, and the second, yesterday, by a premature explosion, killed four of the gunners. They have both been abandoned as poor concerns, not to be compared with the Parrotts.

A SINGULAR SIEGE.

The siege of Fort Sumter that is now going on is probably the first attempt in the military history of the world where a distant fortification has been literally besieged over the heads of the garrisons of two other fortifications in direct line with the point attacked. The three works stand about as follows:

Our Batteries, Wagner. Gregg. Sum'er.

□ □ □ □

Our nearest batteries are 3,200 yards, or one mile and three-quarters from Sumter, 500 yards from Wagner and one mile from Battery Gregg. Our batteries range from 3,200 to 4,000 yards from Sumter, and the average is about 3,500 yards, or two miles. Whenever the two intermediate works become troublesome, Admiral DAHLGREN takes them in hand and restores quiet; and at times he order his fleet to amuse themselves and annoy their occupants when they have given no cause for offence. When they are all quiet he does all he can to admonish them of the necessity of keeping quiet, and when troublesome he administers an admonition in the shape of shot and shell, which proves effectual. Thus these two formidable works are, in a measure, silent spectators of the contest going on over their heads.

A REBEL RAM AND THE IRONSIDES.

The *Ironsides* reports a rebel ram of some description to have been alongside of her early on Friday morning. Singular to say, she was not discovered until she struck against the side of the vessel. Her decks were even with the water, and there was a square turret in the centre. She was hailed, and the answer was, "The tug *Live Yankee*, from Port Royal." They attempted to train their guns upon her, but she was so low that they could not be brought to bear. She moved rapidly, and steamed off directly ahead of the *Ironsides*, which fired six or seven shots after her.

OPERATIONS OF ADMIRAL PORTER.

Official Reports of the Expeditions up the White and Yazoo Rivers.

Rebel Steamers Captured and Destroyed.

WASHINGTON, Friday, Aug. 28.

Rear-Admiral PORTER forwards the report of Lieut. BACHE, relative to the White River expedition. He first stopped at Des Arc, on the White River, and burnt Confederate stores, destroyed the telegraph wires, &c., and then sent the *Cricket* after the steamers *Tom Gregg* and *Kaskaskia*, which he had reason to believe were hid up the river, while he and the *Marmora* proceeded to Augusta, thirty miles further. There he obtained valuable information of the enemy, which was subsequently confirmed, namely: that the grand Southern army was concentrating at Brownsville, to make their line of defence on the Bayou Meto. Gen. PRICE was there, and Gen. KIRBY SMITH at Little Rock. Gen. MARMADUKE had crossed the river a few days before, and was then crossing Little Red River. [Brownsville is a short distance northeast of Little Rock, the capital of Arkansas.]

Leaving the *Marmora* off the mouth, Lieut. BACHE went up the Little Red with the *Lexington*. When about twenty-five miles distant, he met the *Cricket* with the two prizes which she had captured at Searcy, fifteen miles further on. She also destroyed MARMADUKE's pontoon bridge, leaving a portion of the latter's brigade on the other side of the river. The *Cricket* was fired into by MARMADUKE's men, and had about twenty soldiers wounded, out of one hundred and fifty. Both vessels were attacked coming down the river. Some cotton and a few prisoners were captured with the prizes. The *Tom Gregg* is a fine side-wheel steamer, as is also the *Kaskaskia*, though somewhat older. They are now officered and manned, and are retained to coöperate with the army. All along the river the farmers were glad at our presence, and many Union demonstrations were made. The captured boats were the only means of transportation the rebels had on the river, and, therefore, our taking them is a heavy blow inflicted upon them. Lieut. DUNNINGTON, who was formerly captured, while in command of Arkansas Post, is now fitting out at Little Rock the *Ponchartrain*, the last ram the rebels have in these waters. If she ventures outside the shoals, Admiral PORTER says she will be captured.

Admiral PORTER, in communicating the results of the last expedition up the Yazoo River to recover the *Baron de Kalb*, the particulars of which have already been published, says that the visit cost the rebels more than was at first supposed.

Capt. WALKER has received information to be relied on that, besides the five steamers at or near the City of Yazoo, ISAAC BROWN, late Lieutenant in the United States Navy, in a panic, and for fear they would fall into our hands, set fire to and destroyed fourteen others, among them nine large ones, the machinery of which was intended to be sent to Selma, Ala., for the gunboats building there. There are no more steamers on the Yazoo. All the vessels which sought refuge there as the safest place in rebeldom have been destroyed.

NEWS FROM FORTRESS MONROE.

FORTRESS MONROE, Thursday, Aug. 27.

The steamer *Daniel Webster* arrived last evening from New-York with 700 rebel prisoners, who will leave for City Point this afternoon to be exchanged.

The Mobile *Daily Tribune*, of Aug. 18, says:

"There are sixteen vessels in the harbor at Pensacola, ten of which are vessels-of-war and six transports. The Yankees are building two immense hospitals at the navy-yard, each 300 feet long and three stories high. All the negroes are being sent to New-Orleans to be placed in the Yankee armies there."

The following deaths are reported in the Hampton and Chesapeake Hospitals:

J. C. Whichmond, Co. D, 17th N. Y.—died Aug. 25.
Silas Havens, Co. I, 19th Wisconsin—died Aug. 25.
Gilbert M. Vanvelser, 130th N. Y.—died Aug. 24.

Presentation of a Sword to Gen. Meade.

HEADQUARTERS, ARMY OF THE POTOMAC, Friday, Aug. 28, 1863.

A superb sword was presented to Gen. MEADE this afternoon by Brig.-Gen. CRAWFORD, commanding the Pennsylvania Reserves, in the name of the division. The presentation took place near the Rappahannock, at Gen. CRAWFORD's headquarters. The grounds were tastefully decorated with evergreen bowers, arches and avenues. Gov. CURTIN and Staff, MORTON MCMICHAEL, and others were present. The sword was presented to Gen. MEADE in a brief and appropriate speech, to which the recipient responded, and was followed by Col. ROBERTS, Gov. CURIN, and others. The addresses generally were of a patriotic character and were highly appreciated by the large assemblage present. The remarks of Gen. MEADE, as he rehearsed the various battles in which the Reserves had sustained a prominent and honorable position, elicited great applause. The festal portion of the programme was progressing when our reporter left.

NATIONAL TROOPS IN NEW-YORK.

WHY THEY ARE HERE.

Important Correspondence Between Gen. Dix and Gov. Seymour.

HEADQUARTERS, DEPARTMENT OF THE EAST, NEW-YORK CITY, Aug. 27, 1863.

To the Editors of the New-York Express:

GENTLEMEN: I find in your paper of yesterday the following paragraph:

"The Administration seems to have made up its mind not to take Richmond, or to occupy Virginia, and our impression is that it does not mean 'to conquer' Virginia until after the Presidential election, so as not to have the Virginia vote in the next Presidential ballot-box. Hence, Gen. MEADE is despoiled of his forces, and some 30,000—some say 40,000—soldiers are encamped here in our beautiful parks, parading before our great hotels, in some places, there robbing the laboring classes of their places of airing or enjoyment, as in Tompkins-square, while all the forts around swarm with soldiers. The conquest of New-York seems of much more importance to the Administration, just now, than the conquest of Virginia."

As the troops on service in this City were sent here at my request, I forward to you for publication a correspondence between the Governor of this State and myself, which will explain my reasons for asking a military force to be placed at my disposal while the draft of men for the army was in progress. It was my wish that the law providing for the draft should have been executed under the protection of the military power of the State in case of armed resistance to it, not only because such an arrangement would have given evidence of the cordial coöperation of the State authorities with the Federal Government in carrying out an important war measure, but because it would have rendered unnecessary the withdrawal of troops from the field at a time when they were actually employed in bringing the rebellion to a close.

Had my application to the Governor been successful, I should not have asked the General Government to send to this State a single soldier to aid in asserting its authority, and in protecting its officers from violence in the discharge of their duties. I am, very respectfully yours,

JOHN A. DIX, Major-General.

HEADQUARTERS, DEPARTMENT OF THE EAST, NEW-YORK CITY, July 30, 1863.

His Excellency Horatio Seymour, Governor of the State of New-York:

SIR: As the draft under the act of Congress of March 3, 1863, for enrolling and calling out the National forces, will probably be resumed in this City at an early day, I am desirous of knowing whether the military power of the State may be relied on to enforce the execution of the law, in case of forcible resistance to it. I am very anxious that there should be perfect harmony of action between the Federal Government and that of the State of New-York; and if under your authority to see the laws faithfully executed. I can feel assured that the act referred to will be enforced. I need not ask the War Department to put at my disposal for the purpose troops in the service of the United States. I am the more unwilling to make such a request, as they could not be withdrawn in any considerable number from the field without prolonging the war and giving aid and encouragement to the enemies of the Union at the very moment when our successes promise, with a vigorous effort, the speedy suppression of the rebellion. I have the honor to be, very respectfully, your obedient servant, JOHN A. DIX, Major-General.

ALBANY, Monday, Aug. 3, 1863.

To Major-Gen. John A. Dix, Command Eastern Department, &c.:

SIR: I received your letter on Saturday. I have this day sent to the President of the United States a communication in relation to the draft in this State. I believe his answer will relieve you and me from the painful questions growing out of an armed enforcement of the Conscription law in this patriotic State, which has contributed so largely and freely to the support of the National cause during the existing war. When I receive the President's answer I will write to you again upon the subject of your letter.

Truly yours, &c., HORATIO SEYMOUR.

HEADQUARTERS DEPARTMENT OF THE EAST, NEW-YORK CITY, Aug. 8, 1863.

His Excellency, Horatio Seymour, Governor of the State of New-York:

SIR: I had the honor to receive on the evening of the 5th inst., your letter of the 3d, in reply to mine of the 30th ult., informing me that you had made a communication to the President of the United States in relation to the draft in this State, and expressing your belief that his answer would relieve you and me "from the painful questions growing out of an armed enforcement of the Conscription act," &c.

Your Excellency promises to write to me again on the subject when you have received the President's answer. It will afford me great pleasure to hear from you and to receive an affirmative answer to the inquiry contained in my letter. But I owe it to my position as Commander of this Military Department to anticipate this reply by some suggestions arising out of your answer to me.

You are, no doubt, aware that the draft has been nearly completed in the nine Western Districts, and that it has also been completed in several Districts and is in successful progress in others in the central part of the State, under the orders of the Provost-Marshal-General. It is my duty now as Commanding officer of the troops in the service of United States in the Department, if called on by the enrolling officers, to aid them in resisting forcible opposition to the execution of the law; and it was from an earnest desire to avoid the necessity of employing for the purpose any of my forces, which have been placed here to garrison the forts and protect the public property, that I wished to see the draft enforced by the military power of the State in case of armed and organized resistance to it. But holding such resistance to the paramount law of Congress to be disorganizing and revolutionary, leading, unless effectually suppressed, to the overthrow of the Government itself, to the success of the insurgents in the seceded States, and to universal anarchy, I designed, if your coöperation could not be relied on, to ask the General Government for a force which should be adequate to insure the execution of the law, and to meet any emergency growing out of it.

The act under which the draft is in progress was, as your Excellency is aware, passed to meet the difficulty of keeping up the army through the system of volunteering to the standard of force deemed necessary to suppress the insurrection. The service of every man capable of bearing arms is in all countries, those specially in which power is responsible to the people, due to the Government when its existence is in peril. The service is the price of the protection which he receives, and of the safeguards with which the law surrounds him in the enjoyment of his property and life. The act authorizing the draft is entitled "An act for enrolling and calling out the national forces." I regret that your Excellency should have characterized it as "the Conscription act"—a phrase borrowed from a foreign system of enrollment, with odious features, from which ours is wholly free, and originally applied to the law in question by those who desire to bring it into reproach and defeat its execution. I impute to your Excellency no such purpose. On the contrary, I assume it to have been altogether inadvertent. But I regret it because there is danger that, in thus designating it and deprecating "an armed enforcement" of it, you may be understood to regard it as an obnoxious law, which ought not to be carried into execution, thus throwing the influence of your high position against the Government in a conflict for its existence.

The call which has been made for service is for one-fifth part of the arms-bearing population between 20 and 35 years of age, and of the unmarried between 35 and 45.

The insurgent authorities at Richmond have not only called into service heretofore the entire class between 18 and 35, but are now extending to classes more advanced in age. The burden which the loyal States are called on to sustain is not, in proportion to population, one-tenth part as onerous as that which has been assumed by the seceded States. Shall not we, if necessary, be ready to do as much for the preservation of our political institutions, as they are doing to overthrow and destroy them—as much for the cause of stable government as they for the cause of treason and for the disorganization of society on this continent? I say the disorganization of society; for no man of reflection can doubt where secession would end if a Southern Confederacy should be successfully established.

I cannot doubt that the people of this patriotic State, which you justly say has done so much for the country during the existing war, will respond to the call now made upon them. The alacrity and enthusiasm with which they have repeatedly rushed to arms for the support of the Government and the defence of the National flag from insult and degradation, have exalted the character and given new vigor to the moral power of the State, and will inspire our descendants with magnanimous resolution for generations to come. This example of fidelity to all that is honorable and elevated in public duty must not be tarnished. The recent riots in this City, coupled as they were with the most atrocious and revolting crimes, have cast a shadow over it for the moment. But the promptitude with which the majesty of the law was vindicated, and the fearlessness with which a high judicial functionary is pronouncing judgment upon the guilty, have done and are doing much to efface what, under a different course of action, might have been an indelible stain upon the reputation of the City. It remains only for the people to vindicate themselves from reproach in the eyes of the country and the world by a cheerful acquiescence in the law. That it has defects, is generally conceded. That it will involve cases of personal hardship is not disputed. War, when waged for self-defence, for the maintenance of great principles, and for the national life, is not exempt from the suffering inseparable from all conflicts which are decided by the shock of armies; and it is by our firmness and patriotism in meeting all the calls of our country upon us that we achieve the victory, and prove ourselves worthy of it and the cause for which we toil and suffer.

Whatever defects the act authorizing the enrollment and draft may have, it is the law of the land, framed in good faith by the representatives of the people, and it must be presumed to be consistent with the provisions of the Constitution until pronounced to be in conflict with them by competent judicial tribunals. Those, therefore, who array themselves against it are obnoxious to far severer censure than the ambitious and misguided men who are striving to subvert our Government, for the latter are acting by color of sanction under legislatures and conventions of the people in the States they represent. Among us, resistance to the law by those who claim and enjoy the protection of the Government has no semblance of justification, and becomes the very blackest of political crimes, not only because it is revolt against the constituted authorities of the country, but because it would be practically striking a blow for treason and arousing to renewed efforts and new crimes those who are staggering to their fall under the resistless power of our recent victories.

In conclusion, I renew the expression of my anxiety to be assured by Your Excellency, at the earliest day practicable, that the military power of the State will, in case of need, be employed to enforce the draft. I desire to receive the assurance because, under a mixed system of government like ours, it is best that resistance to the law should be put down by the authority of the State in which it occurs. I desire it also because I shall otherwise deem it my duty to call on the General Government for a force, which shall not only be adequate to insure the execution of the law, but which shall enable me to carry out such decisive measures as shall leave their impress upon the mind of the country for years to come.

I have the honor to be, very respectfully, yours,

JOHN A. DIX, Major-General.

EXECUTIVE DEPARTMENT, ALBANY, Aug. 15, 1863.

To Maj.-Gen. John A. Dix, U. S. A., Commanding Department of the East:

SIR: I have received the final answer of the President to my suggestions with regard to the draft in this State. I regret that he did not see fit to comply with my requests, as I am confident that a generous reliance upon the patriotism of the people, to fill the thinned ranks of our armies by voluntary enlistments would hereafter, as it has heretofore, prove more effectual than any conscription. As I have fully expressed my views on this subject in my correspondence with the President, of which I send you a copy, it is not necessary to refer again to those topics.

I had hoped the same opportunity would be afforded New-York that has been given to other States, of showing to the world that no compulsory process was needful to send from this State its full quota of men to reinforce our armies. As you state in your letter that it is your duty to enforce the act of Congress, and as you apprehend its provisions may excite popular resistance, it is proposed you should know the position which will be held by the State authorities. Of course, under no circumstances can they perform duties expressly confided to others; nor can they undertake to relieve others from their proper responsibilities. But there can be no violations of good order, no riotous proceedings, no disturbances of the public peace, which are not infractions of the laws of the State, and those laws will be enforced under all circumstances. I shall take care that all the executive officers of this State perform their duties vigorously and thoroughly, and if need be the military power will be called into requisition.

As you are an officer of the General Government, and not of the State, it does not become me to make suggestions to you with regard to your action under a law of Congress. You will, of course, be governed by your instructions, and your own views of duty; and it would be unbecoming in me to obtrude my opinions upon one who is charged with high responsibilities, and who is in no degree subject to my direction or responsible to me for anything which he may do in accordance with his own judgment, and in pursuance of his convictions of propriety.

Yours, truly, &c.,

HORATIO SEYMOUR.

HEADQUARTERS DEPARTMENT OF THE EAST, NEW-YORK CITY, Aug. 18, 1863.

To His Excellency Horatio Seymour, Governor of the State of New-York:

SIR: I did not receive until last evening your letter of the 15th inst.

Immediately on my arrival in this City, on the 18th ult, I called on you with Gen. CANBY, and in a subsequent interview with you at my Headquarters, I expressed the wish that the draft in this State should be executed without the employment of troops in the service of the United States. In a letter addressed to you on the 30th ult., I renewed more formally the expression of this wish, and stated that if the military power of the State could be relied on to enforce the draft, in case of forcible resistance to it, I need not call on the Secretary of War for troops for that purpose. In the same spirit, when some of the Marshals in the interior applied to me for aid against threatened violence, I referred them to you in order that they might be protected by your authority. It was my earnest wish that the Federal arm should neither be seen nor felt in the execution of the law for enrolling and calling out the National forces, but that it might be carried out under the ægis of the State, which has so often been interposed between the General Government and its enemies.

Not having received an answer from you, I applied to the Secretary of War on the 14th inst., for a force adequate to the object. The call was promptly responded to, and I shall be ready to meet all opposition to the draft. I trust, however, that your determination of which your letter advises me, to call into requisition the military power, if need be, to put down violations of good order, riotous proceedings and disturbances of the public peace as infractions of the laws of this State, will render it unnecessary to use the troops under my command for the purpose, and that their only service here may be to protect the public property and the officers of the United States in the discharge of their duties, and to give to those who intend to uphold the Government, as well as those who are seeking to subvert it, the assurance that its authority will always be firmly and effectually maintained.

I am, very respectfully, your obedient servant,

JOHN A. DIX, Major-General.

STATE OF NEW-YORK, EXECUTIVE DEPARTMENT, ALBANY, Aug. 20, 1863.

To Maj.-Gen. John A. Dix, Commanding Department of the East:

SIR: I have received yours without date, in answer to my letter of the 15th inst. You are already advised of the causes of my delay in answering the suggestions in your communication of the 28th of July. It is also proper I should state to you that no notice was given to me of the time when the draft would be made in the City of New-York, neither was I advised of the draft which was begun in July and interrupted by riotous proceedings. I learned from the New-York journals, received here on Monday, that the draft would be made on Wednesday, which gave me but one day's time, in an unofficial notice, on which to consult with the Generals commanding militia in the Counties of New-York and Kings.

The notices sent to me by Col. FRY advise me of the completion of the enrollment in the several districts, the number to be drafted and the fact that the draft is ordered.

I send you herewith a copy of one of these letters; they are all substantially alike. They do not state when the draft will be made, and in most cases several weeks, and in some instances more than a month, elapse before the draft is made. I therefore expected some interval between the notice and the draft. In the case of the Sixth District in New-York, the letter of Mr. FRY was received the day before the draft commenced.

You will see that no time was allowed for getting credits for volunteers, for making suggestions or preparations. I do not know that the fault rests with Col. FRY, but it is proper for me to state these facts.

Truly yours, &c.

HORATIO SEYMOUR.

The Lawrence Massacre—Relief for the Widows and Orphans.

THE FIRST CONTRIBUTION TO THE FUND FOR THE SUFFERERS.

The first contribution received at this office for the Lawrence fund, was accompanied by the following note. The writer, as will be seen, has but one arm, or he would do something more effective, though it could not be more worthy.

NEW-YORK, Thursday, Aug. 27, 1863.

To the Hon. H. J. Raymond:

DEAR SIR: Inclosed you will find five dollars for the benefit of the widows and orphans of the Lawrence massacre. I hope to God that the men engaged in it will never see an October sun. If I had both hands I would have been on my way there before this time.

Yours,

WILLIAM RENFREW, Flagman 3d-av. R. R.

NOTE AND CONTRIBUTION FROM A NAVAL OFFICER.

NEW-YORK, Thursday, Aug. 27, 1863.

SIR: An appeal has been made in the columns of the TIMES of this morning, in behalf of the sufferers of *Lawrence*, to which I hope there will be a generous response, and the maxim that "Charity begins at home" thoroughly vindicated. Deeply sympathizing in their distress, and in the cause for which they suffered, I inclose fifty dollars toward alleviating their misfortunes. I have the honor to be, Sir, your obedient servant,

MARTIN DUANE,
U. S. N., and a citizen of Kansas.

I add to the above five dollars.

EXEMPTION ORDINANCE

Passed by the Board of Supervisors---Signed by the Mayor.

Military, Firemen and Police Provided For.

Yesterday afternoon the Board of Supervisors held a special meeting, and passed, with but one vote, Mr. ELY's, in the negative, an ordinance appropriating two millions of dollars for the exemption of the military of this City, active firemen, and exempt firemen doing active duty, and the police resident of and doing service in this City. It also provides for exempting in certain cases of indigence, where the drafted has a family depending on him for support, and also for peculiar cases of hardships in the draft lot.

The Committee designated in the ordinance to decide upon claims for exemptions is non-partisan, being the Mayor, Comptroller, Supervisors PURDY, BLUNT, TWEED and STEWART, three from each party.

The Board of Supervisors have seen the hopelessness of unity of action betwixt the Mayor and the Boards, and therefore called a special meeting for consideration of the subject. On suggestion of Supervisor PURDY, a preamble was adopted, setting forth that action on the draft was necessary. That no hopes of agreement between the Mayor and Common Council existed, and authorizing the Committee on Annual Taxes to consult with the Mayor and Comptroller, and agree on an exempting ordinance which the Supervisors could pass and which His Honor could approve. The result was the reporting of the ordinance, published below, which in all essential particulars corresponds with the views of the Mayor, as set forth in his veto of the Common Council progeny, or prodigy. It was promptly passed, and so soon as passed it received the Mayor's signature. It is about the same that Comptroller BRENNAN submitted, unsuccessfully, to the Common Council caucus the other day.

What will become of the Three Million ordinance, vetoed and lying in the Common Council, is not known. At the time the Supervisors were doing their good work, both the City Boards were in session, diligently resolving not to yield to the Mayor's veto, and appointing Committees to raise the funds contemplated in their ordinance on the strength of their pledge to pass it over his objections. But they have to wait some days yet, ere they can act upon the veto. Meantime the Comptroller is not disposed to let the grass grow ere the work of raising the money is begun, and advertises at once for the loan, the books opening to-day at his office. Subscribers will be required to deposit with the County Treasurer or at the Broadway Bank, within five days after entering their subscriptions, the amounts subscribed for by them respectively, and on presenting his receipts for the money to the Comptroller, they will receive bonds of the county for equal amounts, redeemable on or before Sept. 1, 1864, with interest from the date of payment at the rate of six per cent. per annum.

It is confidently expected that capitalists will promptly take the loan—the investment being one not hampered by informality or irregularity.

AN ORDINANCE.

To provide for the procurement of substitutes for certain citizens of the City and County of New-York, who have been or may hereafter be drafted to serve in the Army of the Union during the existing war and for other purposes.

The Board of Supervisors of the County of New-York do ordain as follows:

SECTION 1. For the purpose of preventing the withdrawal from this City at the present time of a considerable number of active, able-bodied citizens, whose presence and services are deemed necessary for the maintenance of public order and the security of its inhabitants, the Comptroller is hereby authorized and directed to pay, as hereinafter provided, such sum and sums of money as may be necessary to procure acceptable substitutes, not exceeding three hundred dollars for any one substitute, for any of the following described citizens who are liable under the provisions of the act of Congress passed March 3, 1863, to be drafted into the military service of the United States, and who have been, or may hereafter be actually so drafted to serve during the existing war, not exceeding three years, that is to say,

1. The active members of the Fire Department, who were such on the tenth day of the present month of August.
2. The exempt members of the Fire Department who perform active duty in the said Department.
3. The regular members of the Metropolitan Police force resident in and doing duty in this County.
4. The regular members of the active Militia force of the State in this City.

SEC. 2. The moneys authorized by the preceding section to be paid for substitutes, shall be paid to such substitutes respectively, or their authorized agents, at the office of the Comptroller, or such other place or places as said Comptroller may designate, immediately upon their furnishing him with satisfactory evidence of their acceptance and actual muster into the service aforesaid.

SEC. 3. In case such substitute or any of them cannot be procured within the time they may be required, it shall be the duty of the Comptroller to pay to the proper officer of the United States the sum necessary to procure the exemption of the persons enumerated in the first section of this ordinance for whom substitutes are not furnished.

SEC. 4. Whenever any citizen, other than those enumerated in the first section of this ordinance, having a family depending on him for support, who are in such indigent circumstances as to require pecuniary assistance, shall be drafted and actually mustered into the service as aforesaid, the Comptroller is hereby authorized and required to pay in addition to the aid now provided and allowed to the families of volunteers, from the Soldiers' Family Aid Fund of the Corporation of the City of New-York, the sum of three hundred dollars, the same to be paid in such installments and at such times as in the judgment of the Comptroller will best afford the assistance needed by such family, *provided* that no such payment shall be made except upon a certificate to be signed by a majority of the Committee hereinafter named, setting forth the name, residence and occupation of such drafted person; also, the number of his children or other dependents, and that they are in such circumstances as to require relief beyond the amount authorized to be paid them from the Soldiers' Family Aid Fund aforesaid, which certificate be filed in the Comptroller's office.

SEC. 5. The Mayor, Comptroller and the following named members of this Board, that is to say, ELIJAH F. PURDY, ORISON BLUNT, WM. M. TWEED and WM. R. STEWART, are hereby designated and appointed a Committee to receive applications from the families of the drafted persons mentioned in the last preceding section for the additional aid thereby provided; and it shall be the duty of said Committee to carefully investigate all such applications, and to issue proper certificates in behalf of the families who, by the provisions of this ordinance, are, or may become, entitled to the additional aid aforesaid.

SEC. 6. In all cases of citizens situated as described in the fourth section of this ordinance, who may elect to furnish a substitute, instead of serving personally, upon furnishing the Comptroller a certificate, setting forth the particulars so cified in said fourth section, in regard to the pecuniary circumstances of such drafted person, together with satisfactory evidence that said person has furnished a substitute, who has been duly accepted and mustered into the service, in the room and stead of such drafted person, the Comptroller is hereby authorized and required to pay to such substitute or his order, the sum of three hundred dollars.

SEC. 7. In case any citizen who is in indigent circumstances, and has a family depending upon him for support, shall be drafted, and the condition of whose family shall be such as to render it, in the opinion of the Committee, designated in the fifth section of this ordinance, a case of peculiar hardship for him to leave them, and he shall be unable to furnish a substitute within the time required, he shall report the fact to the said Committee, and that said Committee shall have power, in case they think proper to do so, to excuse him from furnishing such substitute, and in that case they shall notify the Comptroller thereof, who shall thereupon pay the proper officer the sum necessary to procure the exemption of such indigent person from the draft.

SEC. 8. In order that the Comptroller may be enabled to make the several payments hereinbefore authorized and the expenses necessarily incurred in the execution of this ordinance, he is hereby authorized to borrow from time to time, on the faith and credit of the County of New-York, the sum of two millions of dollars ($2,000,000,) which is hereby appropriated therefor.

SEC. 9. For the money so borrowed the Comptroller shall execute and deliver to the persons lending the same, Bonds of the County of New-York, which shall be signed by the Comptroller, countersigned by the Mayor and sealed with the Common Seal of this Board, attested by the Clerk, which shall bear interest at such rate as may be agreed upon, not exceeding six per cent. per annum, and the principal thereof shall be redeemable on or before the first day of September, 1864.

SEC. 10. For the payment and redemption of said Bonds and the interest thereon, according to their tenor, the faith of the County of New-York and of the Board of Supervisors of said County is hereby solemnly pledged.

The Draft Concluded in this City.

Yesterday the draft concluded in this City. It has been carried on without the least interference in any district, and without an intimation of disturbance. The vile, cowardly rabble who, on the former occasion, took advantage of the powerless condition of the City, to rob, burn and murder, were cowed into submission by the preparations made to enforce the law, and on overt acts to summarily and severely handle them. There is no occasion for any congratulation that "everything passed off quietly." The thieves and vagabonds who committed the former outrages and interruptions, deserve no such indirect acknowledgments. It was determined this time that "everything *should* pass off quietly," and that the law to its last letter should be inforced and obeyed—not only so far as the ignorant and brutish, who held riot revel before were concerned, but also the master spirits who encouraged them on, yet held themselves aloof from active participation. There has been a wonderful improvement in act and tongue in this City within two weeks, and it is due to the determined action of the National and Local Government, and to the determination of every decent citizen that the law should be sustained at any all cost.

IMPORTANT FROM THE SOUTH.

Probable Evacuation of Chattanooga and East Tennessee.

STEVENSON, Ala., Friday, Aug. 28.

It is ptobable that the rebels are evacuating Chattanooga and all East Tennessee. Deserters who come within Gen. REYNOLDS' lines report that they are moving guns and useful and important machinery from the founderies at Chattanooga to Atlanta. The rebel cavalry is reported to be concentrating at Rome, Ga.

A SMALL REBEL SUCCESS.

Capture of the United States Gunboat Satellite and the Tug Reliance.

BALTIMORE, Friday, Aug. 28.

The gunboat *Currituck* reports that the gunboat *Satellite* and tug *Reliance* were captured by the rebels near the mouth of the Rappahannock River on Tuesday last.

BALTIMORE, Friday, Aug. 28 P. M.

The gunboat *Meigs* arrived at Point Lookout at 11 o'clock on Wednesday, and reports having met the gunboat *Currituck* in the Chesapeake Bay. Her Captain reported that the gunboat *Satellite* and the tugboat *Reliance*, Capt. DUNGAN, with the crews of both vessels, were captured on Tuesday by the rebels near the mouth of the Rappahannock River.

The Captain of the *Satellite* was reported killed, and the Captain of the *Reliance* wounded.

THE REPORT DOUBTED.

WASHINGTON, Friday, Aug. 28.

A report is published that the gunboats *Reliance* and *Satellite*, of the Potomac flotilla, were captured several days ago off the mouth of the Rappahannock; but neither official nor ordinary confirmation or the rumor has been received here to-day.

AFFAIRS ON THE MISSISSIPPI.

New-Orleans Advices to the 20th—A Disastrous Collision, &c.

MEMPHIS, Tuesday, Aug. 25.

New-Orleans advices up to the 20th, received to-day, contain but little news.

The ship *C. C. Duncan* from Boston, with 75,000 bushels of oats, had arrived.

Eighty bales of low middling cotton sold at 56¼c. There was very little cotton on sale.

The steamboat *Courier*, with the Forty-ninth Illinois regiment on board, came into collision with the steamboat *Des Arc*, 30 miles below Memphis. The *Courier* sank. Some lives were lost—how many is yet unknown.

FROM NASSAU, N. P.

Unsuccessful Blockade Runners—Capture of the Steamer Cronstadt, &c.

The steamer *Corsica*, from Nassau, Aug. 24, arrived yesterday.

Quite a riot took place at Granttown between the inhabitants and soldiers. Two or three were killed on both sides.

Several blockade runners had returned to Nassau from unsuccessful attempts to get into Southern ports.

An arrival at Nassau from Havana reports that the old walls of Havana had been demolished.

The gunboat *Juniata* sailed from Havana on the 12th inst., in pursuit of the rebel steamer *Nita*, which had sailed the same day for Mobile.

The Nassau *Guardian*, of the 22d, says:

"The steamer *Cronstadt* was captured by the Federal gunboat *Rhode Island* on Sunday last, about 42 miles from Abaco, while on her way from Wilmington to this port. The pilot, second mate, and two engineers belonging to the *Cronstadt* left in a boat, and two shots were fired at them by the *Rhode Island* without effect. The Captain, chief mate and purser were detained on board their vessel, and sent to New-York in charge of a prize crew. The passengers and crew were taken on board the gunboat and transferred at Harbor Island to the schooner *Elizabeth*, in which they arrived here on Tuesday last."

The Nassau *Advertiser*, of the 22d, says:

"The steamer *Alice*, Capt. EGAN, arrived at this port from Charleston on Wednesday evening last, bringing dates to the 17th inst."

The Seventy-first Regiment at High Bridge.

A detachment of the Seventy-first regiment, N. G. S. N.Y., comprising companies G and H, under command of Capt. HENRY W. TURNER, left the Armory yesterday morning and proceeded to High Bridge to relieve companies E and F who have been up there on duty during the past week. The fine appearance of the command elicited great admiration. They were fully armed and equipped as if for a campaign in "Dixie," but they anticipate a very different time at High Bridge from their late campain in Pennsylvania. The presence of the Seventy-first at this resort increases the number of visitors, and all agree that they are gentlemen and soldiers.

The Draft in Utica.

UTICA, N. Y., Friday, Aug. 28.

The drafting for this City took place to-day amid general good feeling. The conscripts are parading the streets with bands of music. Six editors have been drafted. Six towns remain in which to complete the draft in Oneida County.

SHOULDER-STRAPS.—In our advertising columns, this morning, will be found a statement from Messrs. T. B. PETERSON & BROS., the publishers, and an affidavit from Mr. HENRY MORFORD, author of the new novel, *Shoulder-Straps*, in which it is alleged that gross injustice has been done to both author and publishers, in this City, by an attempt to connect that work with an old book, and thus stop the sale. The statement in our columns to-day should be read by both booksellers and book-readers.

THE ARABS TO VISIT CENTRAL PARK.—This afternoon the Bedouin Arabs, twelve in number, will visit Central Park. The beauties of our celebrated Park having been noised abroad, the Bedouins are most anxious to visit its superb magnificence. Mr. HARVEY B. DODWORTH has so arranged that he will play an Arabian air of welcome on their appearance around the pagoda.

LOCAL INTELLIGENCE.

THE DRAFT.

Names Drawn Yesterday in the Fifth and Ninth Districts.

Draft in the Fifth District.

THIRTEENTH WARD.

Pursuant to announcement, the draft for the Fifth District was resumed at 9 o'clock A. M. yesterday, at the Old Police Headquarters on Broome-street, with the same force of Police and military on guard, and the same throng in and around the building, as on the two preceding days. Inspector LEONARD and Capts. DAVIS, STILES and WILLIAMSON had charge of the Metropolitans, and Capts. JORDAN and BRYANT of the United States infantry.

A Committee of Citizens of the Thirteenth Ward, consisting of Ex-Councilman ANTHONY MILLER, GEO. H. SHARP and RICHARD AUSTIN, counted and inspected the ballots, and declared all to be in proper order. It was then announced by District-Marshal DUFFY that the number of ballots deposited in the wheel was 3,465, of which 585 were to be drawn; and after Mr. MILLER had stated his perfect confidence in the fairness of all the preparations, Capt. DUFFY formally opened the drawings. Mr. FRANCIS NORMAN was blindfolded, and the Commissioner proceeded to read aloud the lucky numbers that emerged.

The first name drawn was HENRY BUSH, 570 Grand-street. The work then went on in rapid order, it being determined, if possible, to complete the remainder of the district, including the Thirteenth and Fourteenth Wards, with the day. The usual hilarity followed the utterance aloud of some of the curious combinations of Christian and surnames revealed by the wheel, and the draft of colored citizens, seeming considerable, was also a source of amusement.

At 12½ o'clock the last name of the Thirteenth Ward was drawn, and that Sub-District being complete, an adjournment was taken for half an hour, and was most welcome after the severe labor of the morning.

THE FOURTEENTH WARD.

At 1 o'clock Messrs. Councilman JAMES HAYES, GEO. F. BELLOWS and PATRICK BRENNAN commenced counting the ballots, and in about half an hour had completed their labors.

Total ballots placed in the wheel..........3,735
To be drawn, including the 50 per cent..........724

Councilman HAYES warmly testified to the correctness of the ballots in all respects, and expressed the hope that the citizens of the Fourteenth Ward there assembled in multitude would as carefully preserve order and manifest as good a spirit as had their neighbors of the other Sub-Districts. Great interest was manifested in the afternoon, and several persons of note in the City, among others Sheriff LYNCH, were present.

The first name drawn was

WILLIAM CODY, of No. 48 Mott-street.

The draft then went on with great smoothness and rapidity, scarcely interrupted even by the shouts and laughter which hailed many well known names. Among these, that of Mr. LELAND, of the Metropolitan Hotel, was loudly greeted.

At 4½ the last name was drawn, thus completing the draft of the Fifth District and of the City, and the crowd, after a brief address of thanks for their orderly deportment from Marshal DUFFY, dispersed in good order. The Police and military also seemed glad to be rid of their special service of the past four days.

The politeness of Lieut. BARGER, of Marshal NUGENT's Staff, and of JAS. J. ROGERS, Esq., to the Press, deserves particular mention.

Draft in the Ninth District—Its Completion in Perfect Order.

In conformity with the orders of Capt. JENKINS, the Provost-Marshal of the Ninth Congressional District, the drafting was renewed yesterday morning at 9 o'clock.

The ballots were counted and deposited in the wheel, the whole number being 2,713, from which was to be taken the quota, with 50 per cent. added, making 955 in all.

The usual attendance was on hand, and kept most noteworthy and commendable order. No names of prominence were drawn, save Hon. T. C. FIELDS, late Assemblyman, and the only noticeable feature was the rapidity and clearness with which Capt. JENKINS read the names from the ballots.

At noon, 700 names had been drawn, when a recess was taken, and the officers and reporters were invited by the Board of Enrollment to partake of a most refreshing entertainment.

At the conclusion of the draft, and the consequent official announcements, the members of the Press, same 30 in number, organized an impromptu meeting, and after some remarks complimentary to the Provost-Marshal and his coadjutors, the following resolution was offered by the representative of the TIMES, seconded by Mr. OSBORN, of the *Commercial*, and unanimously adopted by the meeting:

Resolved, That the thanks of the Press are due, and are hereby tendered to Capt. CHARLES E. JENKINS, Commissioner JOHN M. SANDS, Surgeon WM. H. THOMPSON, and their associates in the Board of Enrollment of the Ninth Congressional District, for their uniform courtesy, for the spacious and commodious accommodations afforded, and for the constant exertions made to render the onerous duties of the reporters comparatively light and easy.

A meeting of the members of the Boards of Aldermen and Councilmen was held to-day, pursuant to the provisions of the ordinance for the relief of the persons in indigent circumstances who may be drafted, for the purpose of organization.

Councilman JONES called the Committee to order, and moved that Alderman FROMENT take the chair, as Chairman *pro tem.*

Which was carried.

The roll was then called, when the following members answered to their names:

Aldermen Walsh, McCool, Chipp, Ryers, Jeremiah, Hardy, Froment, Farley—8.

Councilmen Hayes, Sandford, Jones, Webster, McVay, Gross, Brady, McConnell, Repper, Haviland, Gaw, McGrath, Murray, O'Brien, Brandon, Brice, Russell, Joyce—18.

Councilman JONES moved that Alderman FROMENT be appointed permanent Chairman.

Which was carried.

On motion, JOHN A. TOWLE and WILLIAM HITCHMAN were appointed Clerks.

Alderman HARDY moved that a Committee be appointed to draft rules for the government of the Committee.

Which was carried.

The President appointed Aldermen Hardy, Ryer and Chipp, and Councilmen Gross, Brandon and McConnell such Committee.

On motion, the Chairman was added to the Committee.

Subsequently, Alderman HARDY, from the Committee on Rules, reported the following:

Resolved, That the officers of the Committee shall be a Chairman, a Secretary and Treasurer.

Resolved, That the member or members of this Committee residing in a Ward shall be a Sub-committee for that Ward, to attend therein to the duties devolving upon the Committee, and that for such purpose the Second and Third Wards shall be considered as a part of the First Ward.

Resolved, That the sub-Committee for each Ward shall be authorized to employ for such length of time only as shall be absolutely necessary, the following subordinates, viz.: Two clerks to attend the drawing of the Ward, and record the names and residences of the persons drawn in the order in which they are drawn, who shall be paid five dollars each for one day only; in Wards where the number drafted is less than eight hundred, one clerk, and in Wards where the number exceeds eight hundred, two clerks, to attend at an office to be procured by the sub-Committee for the Ward, at a rent not exceeding twenty-five hundred dollars for the whole time it may be used, to receive applications, record the proceedings of the sub-Committee, and in connection with the sub-Committee, to give such information to people whose names have been drawn as may be required, which clerks shall be paid three dollars per day for each day they are necessarily employed. Messengers, not exceeding in number one for each three hundred persons drafted in the Ward, who shall be employed in making inquiries in relation to persons drafted who desire the benefits of the ordinance, which messengers shall be paid at the rate of two dollars for every day each they may be necessarily employed, and one clerk to attend the sessions of the Board of Enrollment during the hearing of claims for exemption, and note the proceedings, who shall be paid five dollars per day for each day that he is necessarily employed.

Resolved, That every fireman applying for relief under the ordinance shall be required to make and subscribe the following affidavit, with the following certificate annexed:

"I, the subscriber, residing at —— in the —— Ward of the City of New-York, do hereby certify that having been drafted in the —— Congressional District, and notified to appear as a conscript, and being liable to military duty under the act of Congress 'for enrolling and calling out the National forces,' &c., approved March 3, 1863, am member of —— Company No. —— of the Fire Department of the City of New-York.

We the undersigned Foreman and Secretary of Company No. ——, do hereby certify that —— is a member of this Company.

Personally appeared before me the above-named —— and also the above-named —— and —— who severally made oath that the above certificate is correct and true.

Resolved, That every other person than a fireman applying for relief under this ordinance, shall make and subscribe the following affidavit:

I, the subscriber, residing at ——, in the —— Ward of the City of New-York, do hereby certify that having been drafted in the —— Congressional District, and notified to appear as a conscript, and being liable to military duty under the act of Congress, "for enrolling and calling out the National forces," &c., approved March 3, 1863, am unable to procure a substitute or pay the sum of three hundred dollars to procure a substitute.

Personally appeared before me the above-named ——, who made oath that the above certificate is correct and true.

The said applicant shall also appear before the Sub-Committee of the Ward in which he resides, and make answer under oath to such questions as may be put to him concerning his circumstances and condition in life.

Resolved, That the payments to be made in each Ward shall be upon the recommendation of the member forming the Sub-Committee, or if there are more than one, by two of the members of the Sub-Committee; and that this Committee will meet daily at one o'clock, for the purpose of approving of the said recommendations, and granting certificates; the said daily meetings to commence on —day the —— day of August, 1863.

Resolved, That whenever the Sub-Committee shall be of opinion that a drafted person who does not elect to serve is exempt under the provisions of the Conscription act, the Committee shall require such person to fill out his exemption, and no payment shall be made to any such person until he has procured his exemption and the Enrolling Board have decided against him, and it shall be the duty of the Sub-Committee for each Ward to cause printed placards to be posted throughout the Ward notifying drafted persons that information concerning exemptions can be procured at the office of the Committee.

Resolved, That whenever any drafted person shall elect to serve, the payment authorized by the second section of the ordinance shall not be made until he has been duly accepted and mustered into the service of the United States, and a proper certificate to that effect has been filed with the Comptroller, and that when the drafted person does not elect to serve, the payment authorized by the second section shall be made by the Comptroller in such a manner as to secure the subsequent payment of the said money to the proper officer of the United States, for the purpose of procuring a substitute.

Resolved, That the Comptroller, Mayor and the President of the Board of Aldermen, and the President of the Board of Councilmen, be a sub-committee, with power to establish one or more recruiting offices for the purpose of procuring volunteers to serve as substitutes for drafted men.

Resolved, That the Comptroller, together with three members from each Board, to be appointed by the Chairman of this Committee, be a sub-committee on Finance, to whom shall be referred the subject of the form and character of the bonds to be issued under this ordinance.

Resolved, That the Comptroller is hereby authorized to appoint such clerks and messengers as may be necessary to aid him in making the payments required by this ordinance, and to provide the books, blanks and stationery necessary to carry out the foregoing resolutions.

Resolved, That the Judge-Advocate-General of the State be requested to prepare for this Committee a statement of the cases in which persons are entitled to exemptions from the draft, and that the same be printed for the use of the Sub-Committees and their subordinates.

Councilman HAVILAND moved that such rules be adopted.

Which was carried.

Councilman GROSS moved that such rules be printed and published under the direction of the Clerks.

Which was carried.

The President appointed as a Committee on Finance, as provided for in such rules, Aldermen Farley, Fox and Long, Councilmen Hayes, Haviland and Brice.

Alderman HARDY moved that when the Board adjourn it do so to meet on Monday, 31st instant, at 2 o'clock.

Which was carried.

On motion, the Board then adjourned.

Whereupon the President announced that the Board stood adjourned until Monday, 31st instant, at 2 o'clock.

FRIDAY, Aug. 28—P. M.

The price of Gold ruled steady through the day, and closed about the same as on Thursday afternoon, 124@124½, and Exchange on London, 136½@137 ℔ cent.

The Stock Exchange speculation in the Railways is again firm, and the market, late this afternoon, is higher than the printed sales, especially on New-York Central, which is the immediate standard. The bidding generally is quite spirited, and the outside crowd in William-street as large as usual, though not so excited as before the turn in the Money market on Wednesday and Thursday. The general run of the sales of the Railways through the day was higher than yesterday forenoon, but not on all descriptions quite up to the best bids at the close of the day. The changes in Government Securities and State and Railway Bonds were unimportant. At 4 o'clock the following figures were made, as compared with the last prices of Thursday—the market firm:

	Thurs.	Frid.		Thurs.	Frid.
Gold Coin	124	124	Harlem Pref.	160	160

The sudden rise of 15@18 ℔ cent. in the shares of the Quicksilver Mining Company is not unexpected to the immediate friends of the estate. The understanding is that the Company, since the recent decision of the Supreme Court of the United States in their favor, have compromised, to the mutual satisfaction of both parties, most of the remaining points of dispute with the old Almaden Company; and it is also known, on direct and official intelligence from California, that all the rumors circulated of late of the diminished income of the Mines, while in litigation, are utterly groundless, so far as the richness of the yield and the productive capacity of the property are concerned.

There is rather more ease in the Money Market, and certainly less violent shifting of Stock Loans to-day than yesterday and the day before, and good borrowers, among the Stock firms, whose wants have not been made too excessive by recent speculations on the Exchange, find little or no difficulty in commanding Money at 6 ℔ cent. Other parties pay from 6 to 7 ℔ cent., the difference of 1 ℔ cent. ℔ annum being held as unimportant on Stocks which rise and fall from 2 to 5 ℔ cent. per day. The inquiry for Merchant paper continues good, and we hear of much lower rates on 60 days' and 4 months' bills than at call on the Stock Exchange—say from 4½ to 5½ ℔ cent. ℔ annum. Very favorite names, 60 days to run, have been passed as low as 4 ℔ cent.

The receipts at the Treasury Office in this City to-day for the Popular Loan are $700,100, of which $285,250 was deposited by the Loan Agents. The Customs receipts were large, $365,000. The importers are entering goods for consumption with much freedom, owing to the improving demand from City and country jobbers. The trade in Foreign Dry Goods, including Silks and other fancy fabrics, is now more active than for several months past, and generally at good prices.

The day's business at the Office of the Assistant Treasurer of the United States, New-York, was as follows: Receipts, $2,147,298, including for Customs, $365,000; payments, $1,960,116; balance, $26,181,177.

The death of the venerable Mr. A. P. HALSEY, late President of the Bank of New-York, was announced yesterday. He entered the Bank in a subordinate capacity as early as the year 1815, on the 18th of June, as he once remarked to us, the day on which the great battle of Waterloo was fought in Europe. He was a Bank officer through the panics of 1819, 1825, 1837, 1857 and 1860, and through the great pressure and financial excitement of 1834, growing out of the removal of the Public Deposits from the United States Bank by President JACKSON, and the more recent temporary pressures of 1847, 1851 and 1854. His extreme age and failing health induced his formal resignation as President of the Bank some months ago; but as he had never grown rich on the emoluments of his various and responsible employments in the Bank, this resignation was held in abeyance, and the emoluments of the office were continued to him, while its active duties were performed by others. Mr. CHARLES P. LEVERICH, late Vice-President, is now the President of the Bank, and Mr. JAMES H. BANKER is the Vice-President.

THE DRY GOODS TRADE has been quite active during the past week. Country buyers have appeared in market in large numbers, and made extensive purchases, at fair prices, of seasonable fabrics, especially Domestic Woolens and Imported Dress Goods. The West and Southwest have been well represented in this respect. The prospect of a lucrative Fall and Winter business in those sections of the Union is decidly encouraging; and, as dealers have allowed their stocks to be reduced to very limited amounts, and their assortments to be broken up, they will have to buy freely, to meet the actual wants of their customers. Western consumers, moreover, are generally represented as being in unusually comfortable circumstances, and able to make liberal expenditures for the luxuries as well as the necessaries of life.

The demand has been less vigorous for Cotton Goods than for other fabrics. The reported heavy seizures by our forces, near Natchez, of Cotton, belonging to the rebel Government, and the increasing probabilities of early and large additions to the available supplies of this staple in our markets, have had the effect of materially checking the demand both for Cotton and its products, as operators expect to be soon enabled to purchase both at decidedly lower prices than would now seem to be acceptable to holders. Auctioneers have been busy throughout the week, having disposed of several large catalogues of goods, realizing satisfactory prices for all really desirable productions. The Imports of Foreign Dry Goods at the port of New-York, week ending Aug. 27, were $1,430,161, against $1,560,700 same week last year, and $494,126 the corresponding week of 1861. The following is the summary for the week:

At a meeting the stockholders of the Hartford, Providence and Fishkill Railroad, at Hartford, on Wednesday, it was voted to sell the road to the Boston, Hartford and Erie Railroad Company at the rate of $10 ℔ share for common stock, and $20 for preferred. The payment is to be in cash now or at the end of thirty-one months, without interest, to pay double those rates, either in stock of the Boston and Erie Road, or in cash, as the Boston and Erie Road may elect.

The Chicago and Alton Injunction.

From the Commercial Advertiser.

The Chicago *Tribune* furnishes the following explanation of the injunction against the payment of the dividend on the Chicago and Alton Railroad:

"The present railroads obtained possession of the road under the so-called Spencer lease, thereby recognizing its validity, and assuming and rendering themselves liable for all its provisions. The lease provided for payment in full of the Illinois creditors of the road, and the present suit is brought by one of the said creditors. The claim sued on amounts to only about $7,000 and interest, but, of course, if the suit is sustained by the Courts, all that class of creditors will have to be paid. We understand that the amount is some three-fourths of a million of dollars, exclusive of interest."

This information was probably furnished by interested parties. As we understand it, all the present securities of the Chicago and Alton Railroad Company represent the bonds of the old corporation, and the bonds were all anterior to the Spencer lease, under which this person claims to be a creditor. Mr. S. J. TILDEN, also in the organization, kept the bonds alive, and they are retained by the trustees, who in the place of them issued the present securities. It will be seen, therefore, that as the road has been reorganized on nothing but the mortgages, there can be but a small probability of the securities being affected by the present motion.

NEWS OF THE DAY.

THE REBELLION.

A dispatch received from Fortress Monroe yesterday, announced the reception of news there that Forts Sumter and Wagner were occupied by our forces on Monday last, the 24th. To show that the news is unreliable, it is only necessary to refer to the fact that the *Arago*, whose advices we published yesterday, did not leave Charleston bar until the 25th—the day after its alleged occupation—at which time the rebels still had possession. We also have this morning an official dispatch from Gen. GILLMORE, dated the 24th, announcing the practical demolition of Sumter, and the establishment of batteries on his left, with which he had succeeded in reaching the heart of Charleston and throwing missiles which BEAUREGARD had designated the most destructive ever used in war. Gen. GILLMORE's dispatch is accompanied by the report of his Chief of Artillery, Col. TURNER.

The Chicago *Post* has information that movements now in progress under the direction of Gen. BANKS, will not only speedily restore the entire Red River district to his control, but that at an early day operations will be commenced, having for their object the occupation of Texas. The great movement, however, is in another direction. Thirty thousand troops, reinforcements to Gen. BANKS' Department, are on the way down the river to be commanded by Gen. GROVER, who has been one of the Generals commanding under Gen. BANKS in all his recent operations. With this additional force all the towns on and near the Lake Pontchartrain coast will be occupied—Madisonville, Mandeville, Bay St. Louis, Pass Christian, Biloxi and Pascagoula—the latter place becoming the base of operations for a land attack against Mobile.

The results of the expedition recently sent up the White River by Admiral PORTER, prove to be important. Lieut. BACHE was in command. At Des Arc he burnt some Confederate stores and destroyed the telegraph wires. Two valuable steamers were captured up the Little Red River—all the steamers the rebels had in that region—and a pontoon bridge was destroyed. At Augusta, thirty miles above the mouth of the Little Red, it was ascertained that the rebel forces west of the Mississippi were concentrating at Brownsville to make their line of defence on Bayou Meto. "Daddy" PRICE was there, and KIRBY SMITH was at Little Rock, while MARMADUKE was crossing the Little Red—an operation which was interrupted by the destruction of the pontoon bridge noted above. One of our boats was fired into by the rebels, and several soldiers were wounded, but none killed. Admiral PORTER has recently learned that on the occasion of the recent expedition up the Yazoo River, during which the gunboat *De Kalb* was lost, fourteen steamers in addition to those before known of, were destroyed by the rebels to prevent their falling into our hands. There are now believed to be no more steamers on the Yazoo.

A detachment of SCOTT's 900 Cavalry, stationed near Edwards, was yesterday attacked by a superior force of WHITE's guerrillas, and seventeen of them were killed, wounded or captured.

Dispatches from Baltimore announce the capture by the rebels, on Tuesday last, of the gunboat *Satellite* and the tugboat *Reliance*, in Chesapeake Bay, near the mouth of the Rappahannock River. No particulars are given; but it is said that the Captain of the *Satellite* was killed, and that the Captain of the *Reliance* was wounded.

The English screw-steamer *Cronstadt* has been captured by the gunboat *Rhode Island*, while attempting to run out of Wilmington (N. C.) harbor, loaded with cotton, turpentine and tobacco.

FROM EUROPE.

The conclusion of the *Hibernia's* news, shut off from us yesterday morning by an interruption of the telegraph, is given to-day. The London *Times*, referring to French operations in Mexico, thinks the French Emperor has done a great service to the world in extinguishing the Monroe doctrine, and in restoring commercial intercourse with a nation of such importance of territory. A British war vessel from Rio Janeiro reports having passed the wreck of a ship just destroyed by the *Alabama*, on the 2d of July. There had been no change in the Polish question.

GENERAL NEWS.

The steamer *Arago*, on her last passage from Charleston, chased a blockade runner for two hours, but a heavy squall of wind and fog prevented the capture of the vessel.

The Providence (R. I.) *Journal* states that Brig.-Gen. ROBERT ANDERSON is to be placed in command of Fort Adams.

In the last two weeks, says the Washington *Star*, Capt. JOHNSON's forces have arrested upward of fifty substitutes, who were attempting to go off, with the intention, in all probability, of offering themselves as substitutes elsewhere. They were all searched, and money—ranging in amount from $125 to $900—was found on each of them. Most of the money was on Eastern banks, and was secreted in their socks, between the linings of their coats and pants, and in other portions of their garments. They proved for the most part to be deserters from the various regiments in the field.

About 4,000 volunteers, nearly half the quota called for from New-Jersey, have already been raised. As it is probable that the draft will not be enforced there for some time, it is not impossible that the entire number may be produced.

Information has been received at the Office of the Lighthouse Board that the lighthouse at Wade's Point, Albemarle Sound, N. C., was destroyed by a band of guerrillas on the 3d inst. Due notice will be given of the reëstablishment of the light.

The Stock market closed firm yesterday afternoon. New-York Central, 137¾@137⅞ ℘ cent.; Government paper steady. Money, 6@7 ℘ cent. on the Stock Exchange; 4½@5½ ℘ cent. on prime Merchant paper. Gold, 124; Exchange, 136½ ℘ cent.

Transactions in Breadstuffs and Provisions were less extensive yesterday, though buyers had any existing advantage. Sugars, Green Teas, Hay, Hops, Whisky, Rio Coffee, Ingot Copper and Kentucky Tobacco were in fair demand. Hides were selling more freely. Sole Leather was salable and steady. Freights were less active. Other branches of trade presented no really new feature.

Our Relations with France.

Our Government ought at once to make preparations for a war with France. It would be foolish to say that such a war is certain to come;—but it would be dangerous as well as foolish to act as if it were impossible. All precaution, especially in national affairs, rests upon the apprehension, the suspicion of coming danger. If we were always to wait until the peril is upon us before making any preparation to meet it, we should always be too late. Absolute certainty in regard to the hostile movements and intentions of foreign Powers, it is impossible to attain. We must act upon indications and tendencies, and the conjectures which they warrant. The seaman guides his vessel by the barometer, though he never expects to find it an infallible prophet of the coming storm.

While it is impossible to know the fact, we have very little doubt that LOUIS NAPOLEON has a secret treaty, either concluded or in progress, with JEFFERSON DAVIS, by which the *cession of Texas* is to be received as an equivalent for recognition and for substantial aid to the rebel Confederacy, The language of the European Press, the tone of the Emperor's organs, the hints of the *Moniteur*, indicate clearly enough his purpose to intervene in our affairs. No one supposes that he would do this without an object. He went to war with Austria "for an idea," but not until he had bargained for the cession of Savoy as the price of establishing the independence of Italy. His seizure of Mexico reveals his purpose to plant the French flag on this continent; and his letter to Gen. FOREY declares that his object in doing so is to check the advancing power of the United States, and fix a limit to their progress southward. The intrigues of two French Consuls in Texas over a year ago, to detach her from the Confederacy and reëstablish nominally her independence, prove that even then he had designs of some kind upon that State: and the hostile action of the rebel Government, by which those intrigues were met, convinced him that it would be easier to buy Texas and have the South aid him in maintaining title, than to seize the State, with the assured hostility of both sections of the Union. His hold on Mexico, moreover, will be insecure without command of a Texan port and of the frontier of the Rio Grande;—while the rich cotton lands of Texas and the access it opens to the rich mineral provinces which are part of the prize he seeks to clutch, add formidable material arguments to the more general motives of State policy by which his action is governed.

These considerations by no means prove that the French Emperor intends to seize Texas: but they are quite sufficient to warrant our Government in acting as if that were his intention. We have no troops in Texas. That State is in full possession of the rebel Confederacy, which may very well assert the right to dispose of it as its interests may require. This condition of affairs should be remedied at once. We ought to hold the mouth of the Rio Grande with a sufficient fleet, and put 20,000 troops along the line of that river. There are many reasons why this should be done without any reference to the supposed designs of France: but the possibility that she has such designs should prompt our Government to take this step without an hour's delay.

We have no doubt that the English Ministry, or at least the Prime Minister, favors this design. Lord PALMERSTON is a thorough-going supporter of LOUIS NAPOLEON. He was on terms of intimacy with him during his exile; he was the first to hail his accession to the Imperial throne; he went out of office because he accepted the *coup d'etat*; his intimate and confidential personal relations with the Emperor have continued without interruption, and the whole tone and tenor of his policy has been one of almost abject subservience to his views and wishes. Except in the single instance of the Suez Canal, which comes into direct collision with English interests, PALMERSTON has followed the lead of LOUIS NAPOLEON on every great question of public policy since he has wielded the power and ruled the destinies of France. He will favor his designs upon Mexico and Texas, and his support of the rebel Confederacy, just so far as the temper of the English people and the security of his own official position will permit. That it will give rise to a dissolution of the English Cabinet, is very likely; and it is by no means impossible that it may occasion the overthrow of the present Ministry, and the elevation to power of men of larger and more liberal views of English policy.

Nothing but the most prompt and effective measures of our Government can thwart these designs. It will be much easier to hold Texas than to reconquer it after the French have once obtained a foothold there. We must understand that we have *foreign* foes to deal with now, as well as domestic enemies of our Government. Let the people comprehend and appreciate this fact, and we are confident we shall have no difficulty in filling the ranks of our armies, and in rallying the country to the defence of the imperiled flag. Indeed, we have very little doubt that the appearance of the French flag upon Southern soil will open the eyes of the Southern people to the real nature of the crusade against civil liberty and national independence into which they have been betrayed by their rebel leaders.

THE DRAFT OVER.—The drafting in New-York City was concluded yesterday. It took just seven days for its enforcement. As everybody knows, and as everybody is rejoiced to know, everything has passed off quietly. Neither the rioters, nor their leaders, nor their newspaper organs, are to be thanked for this, but only the National and State authorities and our gallant soldiers. We are pleased, however, to be able to say that the presence of the troops here seemed to have an excellent tonic effect upon the rioters' newspapers and the rioters' leaders. They have been much less furious and revolutionary, much less inflammatory and bloodthirsty in August than they were in July—though this has been the hotter month by the thermometer. If the presence of twenty or thirty thousand troops here has such an excellent effect in improving the manners, morals, logic and republicanism of the *Express*, *World* and *Daily News*, we think it would be economical and wholesome to station them here permanently.

The People and the Laws.

When Mr. LINCOLN announced that he would enforce the draft without waiting to have the constitutionality of the act tested in the Courts, the Copperheads of this City lifted up their hands in holy horror, and their organ broadly hinted that the supreme moment was at hand, and that Democrats would probably have to count up their strength and —see what they had better do within a few days. By the time Gen. DIX issued his proclamation, however, they had apparently passed through the agonies of deliberation and reached the high and holy resolve of doing nothing whatever. But the organ nevertheless "improved the occasion" by severely reprimanding Major-Gen. DIX for having ventured, in his address to his fellow-citizens, to express his solemn conviction of the justice and expediency of the law which he had undertaken to carry out, if need were, at the point of the bayonet. He ought, it appears, to have preached obedience to the law, but not to have hurt the feelings of "the people" of Mackerelville, by saying that he thought it a good law. After a man has solemnly testified his disapproval of it as FLYNN, who is now in jail awaiting his trial, has done, by publicly dashing out a negro's brains and crushing in his ribs with a big stone, it certainly *does* seem a little indelicate to tell him to his face that the enrollment act is worthy of obedience on higher grounds than mere constitutional ones. But then Gen. DIX is a soldier, and we think he ought to be excused if, coming fresh from the camp, his language displayed a little of a soldier's bluntness. Gentlemen like the July rioters, who have themselves, in the exercise of their calling, frequently to express their feelings in homely and energetic phrases, and without much attention to the possible shocks which they may inflict on the nerves of their hearers, will not be so ready to condemn Gen. DIX on this point as their newspapers are.

The only thing of value produced by the discussion was a final declaration on behalf of City Democrats that they "owed obedience to every law, but not approval." This was a great concession, and a great advance upon the doctrine held on the 13th of July, when we were informed that the disobedience of the mob was in some sort justifiable by the fact that there had been previous disobedience on the part of ABRAHAM LINCOLN, just as if the President's arbitrarily having a man's throat cut at the White House would suspend the laws of the State of New-York against murder and burglary. Still, even this concession ought not to have spread joy through the community, because we have been used all our lives to seeing laws carried into execution without meeting with everybody's "approval." We believe it is not generally supposed that acts of Congress will be approved of by the entire community much before the advance of that childrens' millennium, when the houses are to be roofed with pancakes, and the pigs to rush along the streets with knives in their mouths, calling for butchery and broiling. And it would not have done so if people had not found, that in this City at least, they were liable to have their silver spoons and their bedding carried off every time that Congress happened to pass a bill which the managers of Mozart Hall pronounced beyond its powers. This promised to lend so horrible an interest to the proceedings of both branches of the National Legislature, that we most of us felt that our nerves would not stand the debates, and housekeepers were accordingly profoundly relieved when the *World* gave them to understand that "the laboring population," of its own persuasion, would in future spare their furniture and jewelry, no matter what Congress might do.

This confidence was, however, somewhat rudely shaken on Saturday by Judge WATERBURY's address to the firemen, in which that functionary informed his audience that "we" —whoever that may be—"had a plan to prevent any man's leaving the State unless he is willing, under the Conscription act." This looks as if it was still the intention of Gov. SEYMOUR and his satellites to do what they can to prevent the Government from getting the men, though they cannot prevent it drawing the names. There is, however, only one legal way of preventing this, and that is having them discharged from custody, under a writ of *habeas corpus*, issued by a *United States Judge*. Suppose, however, that the United States Judge was to refuse to release the conscripts—and this is highly probable—the latter would still be as "unwilling" to go as ever, and what should "we" do then? The state of mind of Mr. WATERBURY's *protégés* is not likely to be at all modified by judicial decisions, and as long as it continues unchanged, so does his objection to keep them at home by "our" plan. What is it? A second descent on the up-town silver spoons? This has been tried and failed. There only remains armed insurrection; but then this could hardly be called that "obedience" to the law which our Democratic friends have promised us while sternly withholding the light of their approbation. So he cannot mean this. Will he not enlighten us? He is not nearly as dexterous in the use of English as he is in the manipulation of figures, but still we dare say we shall be able to understand the revelation, if he will only make it.

Vallandigham as a Candidate.

The canvass for VALLANDIGHAM in Ohio drags pitifully. The mass of the people stubbornly refuse to give "the martyr" any sympathy. All of the efforts of the party leaders to kindle passion against "the persecutors" utterly fail. The flashiest clap-trap about the eternal sanctity of free speech vanishes with the flash, and that is the end of it. All the red-hot indignation against the "worst despotism of the age," is received with the most absolute coolness. Nothing answers. The people of Ohio are as firm as flint in their purpose not to make VALLANDIGHAM their Governor; and even his most ardent champions are giving up all hope.

The same unconcern for his banishment from the country exists among the Northern people generally. The prevailing feeling is that he has got no more than his just deserts. The Copperhead organs find it impossible to change this feeling; and the more prudent portion of them have given up all agitation of the matter, as working more damage to them than benefit. The election in Kentucky wrought wonders in disclosing to them the actual temper of the country. WICKLIFFE, the Copperhead candidate for Governor, was thoroughly identified with VALLANDIGHAM in all his spirit and policy. The Copperhead journals in this City, and all through the North, claimed before the election that his success was certain. Yet he was beaten by more than fifty thousand majority. Gen. BURNSIDE's memorable order, No. 38, for opposing which VALLANDIGHAM had been arrested and punished, applied to Kentucky as well as Ohio. But the people of Kentucky refused to get excited about it; they, in fact, gladly accepted it as a military necessity. If that was the feeling of a Border State, which had been regarded as the very front of opposition to the Administration, of course it was useless to hope that anything could be made out of the Vallandigham case elsewhere. As party capital, it was manifestly worthless,

To what is the miscarriage of all the calculations on VALLANDIGHAM to be attributed? Primarily, we say, to his own political unworthiness. He was one of the five Congressmen who, in the beginning of the war, voted against any money appropriation for its maintenance, of which five, three afterward joined the rebels. He had ever since done his utmost to obstruct and stop the war. It was morally certain that his unmeasured denunciations of the Burnside order were stimulated by no other spirit than that of embarrassing the military service of the Government. Had he been the paid agent of the rebels he could no have worked in their behalf with greater diligence or greater skill. Had his efforts succeeded, the rebellion would have prevailed. In the speech which was the immediate cause of his arrest, he said that "the sooner the people inform the minions of usurped power that they will not submit to such restrictions on their liberties, the better." He, in the name of liberty, urging revolt which would give success to the rebellion and destroy the Republic! CATALINE himself had not greater audacity. It was too monstrous. Educated as the people had been to respect the right of free speech, yet they instinctively shrank from such an abuse of it—especially by a man with such a record. When VALLANDIGHAM was held to answer the military law which he had thus defied, and was made to feel its power, though there was fear for a time that it might be inexpedient in its political bearings, there yet was no real sympathy for the man.

Afterward came the horrible New-York riots, which were manifestly the product of just such inflammatory appeals as VALLANDIGHAM had addressed to the people of Ohio. The whole North read the consequences of this sort of sedition in letters of fire and blood. It was then realized, better than before, that the silencing of VALLANDIGHAM was an act not only free from personal wrong to him, but absolutely wise and expedient in itself. Everybody came to understand that military law might have a function to perform to prevent an outbreak, as well as to put down the outbreak with bullets and bayonets when it actually occurred.

Finally, the great National victories gave the finishing stroke to every lingering regard for the exiled factionist. The wickedness and folly of the submission policy which he advocated, were brought home to the heart of every man who had a particle of patriotic feeling. It was practically proved, in a manner nobody could mistake, that all of his assertions of the impossibility of vanquishing the rebel forces were utterly false. It was seen that he had been opposing what was bringing security and honor to the Republic, and had been laboring for what would have involved it in remediless disgrace and ruin. Of course the effect could not but be a greater aversion to him than ever.

There never was a more losing investment than this of the Copperhead party in the nomination of VALLANDIGHAM. It was imagined that, as the victim of free speech, so called, his success must needs be certain. He will be defeated by a majority beyond all precedent in the political annals of Ohio. But it will not be simply a personal overthrow. It will recoil with disastrous effect upon the party which accepted him as their champion—and not merely the party in Ohio, but throughout the North. The Copperhead organs everywhere, from Maine to Kansas, hailed the nomination as one eminently fit to be made. There were no more unqualified approvers of it than the Seymour journals in this City and State. They made it plain to everybody that VALLANDIGHAM was a man exactly after their own heart. If they have latterly begun to use more reason, it has not been because VALLANDIGHAM has changed, or because they have changed, but because they are becoming sensible that the people will not sustain him, and that contact with him is political death. But no reserve now will help the matter. That portion of the Democratic party which has opposed the war policy of the Administration, under the cover of a peculiar concern for the liberties of the dear people, is now to have a serious reckoning with the people. In committing itself to the Ohio candidate so completely as it everywhere did, it simply predestined itself to share his fate. VALLANDIGHAM will be struck out of political existence, so soon as the people have a chance at him, and all his coworkers in other States will, in due time, come to the same end.

THE END NEAR, AND WHAT IT BRINGS.

The Confederacy Dying Rapidly—How it will Die—How to Treat it—What the Nation will be.

THE BEECHES, August, 1863.

It is not many months since I must have seemed to many of my readers as the most sanguine of those who see the future in roseate hues. Perhaps I was; but events have justified my faith. The *pseudo* Southern Confederacy is falling to pieces quite as fast as any reasonable being can desire; for it would be very absurd for it to fall down at once, and we go to kissing these amiable friends, who for no earthly cause have been engaged in driving stilettos at our heart. Let the process be decently slow—*festina lente*—lest we fall over a stone. It is enough that the Confederacy is going to pieces by a process which has always characterized a falling cause. The rats are leaving the ship, and demonstrating that the ship is no longer seaworthy. The rebellion is dying of *exhaustion*. A few days since I allowed the Southern armies 70,000 conscripts. It is now evident that they will not get them, and that all they do get will be more than balanced by the desertions from the rebel armies. GRANT judged right when he paroled PEMBERTON's army, for they have all gone home and will fight no more. The account given by Col. BURKE, of the Ohio Tenth regiment, is undoubtedly true,—that the Tennessee and Mississippi troops desert by thousands. The time is not distant when no army, beyond a few thousand cavalry, can be kept by the rebels in the Southwest. The great mass of their troops are convinced that the rebellion is a failure. It is kept up at all now only by the struggle of their leaders to save their necks. Even the army of LEE is losing more than it gains. I hope it will be able to stand on the Rappahannock two or three months yet; for while LEE's army can be kept together, the great nest of traitors, in Richmond, will remain there. I don't want them to leave there until they are *all effectually caged*. Such scoundrels ought not to be set free. The world may afford to let the poor, ignorant, half-savage beings, who riot and rob in New-York, go at large; but intelligent, educated men, who got up this rebellion, ought never to be allowed outside of the prison. JOHN MORGAN, in the Penitentiary of Ohio, is an example of the very least which can be allowed them. Hence, let ROSECRANS in the West, and GILLMORE at Charleston, do their perfect work. Let the mountains of Tennessee be seized, and the ports through which Europe smuggles supplies be taken, and then we shall have the Satanic synagogue of traitors imprisoned in Richmond. The Confederacy is *dying of exhaustion*; it will breathe slower and hoarser till it lies a lifeless corpse. How, then is it to be treated? The simplest way imaginable. Let it alone. Go to no trouble about reconstruction. There is nothing to reconstruct. Remember the Constitution *acts on individuals*. John Smith and John Jones were rebels. They fought till they were tired; but in the meantime, if the Constitution got hold of them, they would or ought to be hung. That is their constitutional right. But they were not taken; and now, like the prodigal son, they come into ROSECRANS' lines, confess their sins, take the oath of allegiance, and abjure treason and Slavery forever; for mind, *these men will never go for Slavery again*. Those men understand it, whatever New-York politicians may think. There is no capital in them for a Pro-Slavery Democracy. Now what possible objection is there to these *individuals* (not States) becoming virtuous and loyal citizens, and returning to the arms of their mother country? I don't know of any. Well, this process will go on till the country is at peace. In the meantime such men as East Tennesseeans and West North Carolinians will take charge of these States, and a civil and political revolution in the South, complete, salutary and permanent, will take place. The States Rights-Secession-Pro-Slavery party will perish forever. Its natural operation is rebellion. Its natural end, death. With the death of that party in the South, it dies also in the North. The two principles of nationality and States' Rights (in the Southern sense) were natural enemies. They were vitally repugnant. They have fought a great battle, and (thanks be to God, for he alone giveth us the victory!) nationality and freedom have prevailed. The nation will again be free, united, independent—firmly, I trust, justly, dictating the terms by which America shall be preserved to future ages the refuge of the poor and the oppressed. This is one of the things peace will bring. It will bring a perfect and a final end to such foolish performances as Mr. NAPOLEON has been getting up in Mexico. It will make, before long, as great a revolution in European politics as in our own. England will soon learn that playing cat's-paw to France is *not* her part. She will learn that friendship, and not hostility, to her Anglo-Saxon kindred is what both nature and policy dictate. It is easier for the great Anglo-Saxon race to do what their Christian profession requires—prescribe freedom, justice and equity to the nations than it is, by most absurd rivalry, to let war, Slavery and injustice run riot round the earth. God has in all human history deduced good from evil, and I have full faith that it will be done now.

The future of this nation will be tempered by the experiences of the present. If we have learned that we are not invulnerable when the shafts of Omnipotence are hurled against sin, we we shall also learn to avoid the evil, and fear retribution. We shall learn wisdom by calamity. But, has any one thought of what the future of this nation is to be physically, politically, morally, if peace and union shall return? It is almost incalculable. No vision can stretch into the future of growth, grandeur, in physical proportions; and why not in intelligence and virtue? In spite of all the wastage of the war, the census of 1870 will give the country more than forty millions of people. And will its industry cease to accumulate arts and wealth? Not at all. It will rive the rocks for gold and till the earth for its fruits. In the midst of this, shall we still behold these dark spots on our glory, where vice and poverty and ignorance prevail? Is there no way to turn back the tide of intemperance and extravagance and folly, by which countless thousands are hurried to ruin? When WASHINGTON, in his Farewell Address, had depicted the prosperity of a great Republic, he asks, "Alas, have our vices made it impossible?" This is a piercing vital question. If you have Statesmen, Philanthropists, Christians, let them think of this.

NEWS FROM WASHINGTON.

OUR SPECIAL WASHINGTON DISPATCHES

WASHINGTON, Friday, Aug. 28.

A descent of WHITE's guerrillas in superior force upon a detachment of SCOTT's 900 this morning, near Edwards' Ferry, had the usual result of these cavalry attacks. We lost 17 killed, wounded, and captured. The resident rebels counted our force a week ago, and of course sent word to WHITE, who pounced upon it with three or four times its number. Gen. HEINTZELMAN holds out hopes that this sort of warfare in sight of the Capital shall be put an end to.

THE MONEY ON THE STEAMER RUTH.

An exploration of the wreck of the steamer *Ruth*, destroyed by fire a short time ago while conveying $2,600,000 in greenbacks for the payment of Gen. GRANT's army, has failed to discover any trace of the missing money. It is now considered certain that the money was destroyed by the fire, as a guard of 50 men were constantly watching it from the time it was placed on board until the boat was burned.

A SWORD TO GEN. MEADE.

The sword presented to Gen. MEADE, to-day, was ordered soon after the battle of Fredericksburgh, as a compliment to the spirited fight he made on the left, where FRANKLIN was in authority but did not command. It has no connection with the battle of Gettysburgh.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Friday, Aug. 28.

CAPTURE OF AN ENGLISH SCREW STEAMER.

The Navy Department has received a communication from Commander TRENCHARD, of the steamer *Rhode Island*, respecting the capture of the English screw steamer *Cronstadt*, for a violation of the blockade of Wilmington, N. C. Her cargo consists of cotton, turpentine and tobacco. She has been sent to Boston for adjudication.

VIRGINIA.

Gov. PIERPONT, in an address to the people of Virginia, announces that he has established the seat of government at Alexandria. He says if resistance to the civil authority be attempted, and a *posse comitatus* prove insufficient, the aid of the military, as a last resource, will be invoked to enforce the laws. He is happy to be able to say that the President manifests the most lively desire for the restoration of order in the State, and a disposition to assist, by every means at his command, to restore the civil government and produce harmony.

THE CONDEMNED DESERTERS.

A Jewish rabbi from Baltimore and the wife of one of the condemned, and several others were here to-day to make an appeal to the President for his clemency in behalf of the five privates of the One Hundred and Eighteenth Pennsylvania regiment, who are to be shot to-morrow. Their mission does not appear to have been successful.

COMMUTATION.

A letter from the army of the Potomac states that about 200 Germans of the Twentieth New-York volunteers, who mutinied and were sentenced to hard labor during the war, have received a commutation of their sentence through the exertions of Provost-Marshal-General PATRICK.

A REBEL FORCE AT PORT CONWAY.

Accounts from the country between the Potomac and Rappahannock show that the rebels have a considerable infantry force at Port Conway, and are prosecuting their conscription vigorously. Gen. KILPATRICK had a skirmish with them several days ago, and was compelled to fall back from his reconnoissance.

PARDONED.

The President has pardoned WM. DUKE, charged with divers offences against the United States with aiding the rebels in Kentucky.

New Military Journal.

The first number of the *Army and Navy Journal—a Gazette of the Regular and Volunteer Forces*, appeared in this City yesterday afternoon, under date of to-day. It is the first military journal that has appeared in the country that aims at a dignified and soldierly, yet popular, discussion of all the interests pertaining to our now great army and navy. It is not a mere gazette filled with military orders, nor does it belittle its sphere and demean itself by attempting to reduce its articles to a level which no true soldier ever reaches. It aims at an intellectual, scientific, in short, *military* discussion of its topics, in the style of the best army journals of the great military nations of Europe. In this aspect, the first issue is a very remarkable success. It opens with an admirable view of the Military Situation, which is followed by articles on Fortification, on Cavalry, on Iron-clads, on Artillery —taking up also such subjects as Our Bounty Laws, Military and Naval Academies, Hints to Campaigners, Waste of Ammunition, Army Personals, etc.—not neglecting military books, and notes on foreign military and naval science. We call especial attention to the articles on Fort Sumter, on the Army and the Nation, on Capt. RODGERS, on Our Military Commanders, and on What We have Neglected. Beside these discussions, it contains an Army Gazette for all Departments of the Army, a Naval Squadron List, giving the location of every vessel in service, as also a list of naval orders, naval stations, and a digest of general naval and military news; and furnishes also all official reports and documents. The *Army and Navy Journal* is an honor to itself and to the service, both regular and volunteer. It received in advance the approval of some of our most distinguished naval and military officers; who spoke from their knowledge of the character and standing of those who had the matter in hand. It should be taken by every army officer in the field, and by every officer in the navy, as well as by our militia officers—and our more intelligent private soldiers also, as well as the general public, who now take such a deep interest in all military matters, will find its discussions of the highest value and interest. Its articles are from the pens of students of military science, army and navy officers, and professors in our military and naval academies. Its proprietor is Capt. CHURCH, lately of Gen. CASEY's Staff, and its publisher is VAN NOSTRAND, whose place of business will be found per advertisement.

Niblo's Garden.

The regular Fall and Winter campaign commences at this house to-night, the Summer season having come to an abrupt end on Monday last, in consequence of the severe indisposition of Mr. WHEATLEY. Mr. BANDMANN, the German tragedian, plays *Shylock*, in the "Merchant of Venice"—a part wherein he won much applause last year. An excellent company has been engaged to assist in the other parts, and the costuming and *mise en scene* will be up to the high standard of this well-conducted establishment. On Monday Mr. FORREST commences an engagement here, appearing as *Richelieu* in the play of that name. Mr. FORREST plays four times a week, and Mr. BANDMANN twice, thus filling up the programme. Mr. WHEATLEY and his company will play in Philadelphia, the drama being the "Duke's Motto."

Several thousands of dollars in Government and private drafts, checks and funds have been purloined, and the letters covering them found along the route. The mail carriers are under arrest.

CATARRH CURED.

NEW-YORK, Aug. 23, 1863.

I have been suffering for the last three years from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery and very painful. My nostrils were continually obstructed with a pouring of fluid. I have had frequent sneezing, hoarseness of my voice, generally attended with spitting, often with a fullness of my throat, together with a soreness and a dropping. Dr. VON EISENBERG has cured me of all these disagreeable sufferings. I now feel a new life. The treatment of Dr. VON EISENBERG is as skillful as it is successful; it is impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. VON EISENBERG'S care, with a certainty of being *speedily* cured. I give this with gratitude and pleasure. I cannot forbear again saying that my voice, which was hoarse and thick when I applied to Dr. VON EISENBERG, is now clear and good; indeed, I feel abundantly satisfied.

JAMES LITTLE,
No. 245 7th-st., New-York.

"NEW-YORK, May 7, 1863.

I have great pleasure to testify to the skill of Dr. VON EISENBERG. I went into his office almost completely deaf, and came out with my perfect hearing. It is nearly twelve months since, and the hearing is perfect. The operation, which lasted two or three minutes in each of my ears, gave me no pain whatsoever. I, with confidence, recommend all sufferers to place themselves under Dr. VON EISENBERG'S unsurpassing skill.

SAMUEL C. HUNT,

NO. 136 MADISON-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR,

NEW-YORK, July 19, 1862.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing*. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CARROLL J. POST, No. 28 South-st.

SIGHT RESTORED.

JUNE 25, 1863.

My daughter brought me to Dr. VON EISENBERG almost completely blind in both eyes. I could not bear the pain nor the light. I am completely cured by Dr. VON EISENBERG, and called now to express my gratitude to the Doctor for his skill and unremitting attention, by which I recovered one of the most precious senses to me after being deprived of it for four years. It is only due to Dr. VON EISENBERG to state that I have tried several physicians in vain. I shall be happy to bear personal testimony to Dr. VON EISENBERG'S unrivaled success to any lady or gentleman who will call on me.

CHRONIC CATARRH CURED
READ!
NEW-YORK, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of a cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

The following are a few of the many testimonials received, and are submitted with confidence; others, as well as references to parties of the highest respectability, residing in this City, will be cheerfully furnished on application:

NEW-YORK, June 17, 1863.

Dr. Lighthill has succeeded in restoring to perfect hearing my right ear, which has been deaf for some time, caused by a cold. As I am obliged to leave for New-Orleans in a few days, those who may wish to make further inquiries may call on my brother, Mr. H. C. Potter, No. 78 Reade-st., firm of Streeter, Faxon & Potter, who will be happy to give any information desired.

NEW-YORK, April 18, 1863.

A little daughter of mine has been affected with a troublesome discharge from both ears, the result of scarlet fever. Dr. Lighthill, under whose care I placed her, has removed the discharge completely, and improved her hearing.

W. H. RAYNOR, No. 6 Pine-st.

From Rev. John Nott, D. D., Professor in Union College, Schenectady.

SCHENECTADY, Jan. 17, 1863.

Dr. Lighthill—

SIR: Having been cured by you of a discharge in an ear, which has been very offensive of late, and as far back as I can remember, always more or less so; and having been entirely restored to hearing since under your care, I feel that I cannot withhold this acknowledgment from any use it may be to others, especially as I have applied in vain to my family physician and other physicians of reputation. Yours, truly,

JOHN NOTT.

CATARRH CURED.
From Rev. P. R. Russell, Lynn, Mass.

I have been much troubled with catarrh of the worst type for some twenty years. It gradually grew worse, producing cough and hoarseness, destroying the sense of smell, and breaking down my general health to such a degree as to compel me to resign my pastorate, and suspend public speaking.

I made diligent use of the usual remedies, such as snuffs of different kinds, nitrate of silver, tar water, olive tar and inhalations, but without any very salutary effects. Last Summer I heard of Dr. Lighthill's successful mode of treating catarrh, visited him, and put myself under his treatment. I began immediately to improve, and this improvement has gone on to the present time. My catarrh has gradually melted away, my cough has disappeared, my voice has become natural, and I am once more able to preach the blessed Gospel. Let me advise all troubled with catarrhal difficulties to apply to Dr. Lighthill.

P. R. RUSSELL.

LYNN, Mass., Feb. 1, 1862.

No. 740 WATER-ST., NEW-YORK, June 5, 1862.

Dr. Lighthill has succeeded in completely restoring my hearing, which was seriously impaired, although previous to applying to him I was treated by several physicians without the least benefit. Any further information I should be pleased to render on application to me at my residence, No. 173 Second-st., Brooklyn, E. D., or at my place of business, No. 740 Water-st.

WM. H. WATERBURY.

No. 11 DEY-ST., NEW-YORK, Jan. 2, 1863.

DR. E. B. LIGHTHILL—*Dear Sir:* It is with the kindest feelings toward you, and hoping to do service to some one who is afflicted, that I forward the inclosed document to you.

To whom it may concern: I am personally acquainted with the success which attended Dr. Lighthill's treatment in a case of discharge from the ear, and chronic inflammation of the throat, and would be pleased to give further information on application.

V. D. W. WEEKES.

This may certify that, having been afflicted during the year 1856 with severe and almost total deafness, and having tried the ordinary medical and surgical aid, under the care of those esteemed as eminent practitioners, I was induced at last to put myself under the care of Dr. E. B. Lighthill. His treatment was brief and successful. I was completely restored, and the cure is apparently permanent. I have all confidence in Dr. L.'s skill and integrity in the diseases he makes specialties.

JAMES CRUIKSHANK, LL.D.,
Editor New-York *Teacher*.

ALBANY, Oct. 1, 1862.

NEW-YORK, July 28, 1862.

I hereby certify that I have suffered during many years from trouble in hearing; one ear at last became entirely deaf, and the other so bad as to render conversation very difficult. I applied to Dr. Lighthill, of No. 34 St. Mark's-place, who, in a short time, and without pain, restored to me the use of my ears, so that I can now hear perfectly well.

J. BISCO, No. 158 East 23d-st.

No. 42 FIFTH-ST., NEW-YORK, June 25, 1862.

DR. LIGHTHILL—*Dear Sir:* I take pleasure in testifying to the remarkable skill and judgment you displayed in the case of my daughter, who had been partially deaf, accompanied by discharge from the ears, since early infancy, and is now, thanks to your treatment, able to hear as well as any one, while her ears are free from the discharge. Although it is nearly two years since she has been under your care, her hearing remains as good, and her ears as sound, as the day she left you.

O. S. HOLLY.

I placed my wife under the care of Dr. Lighthill, for deafness in one ear of nearly three years' standing, accompanied by constant noises. I am happy to state that her hearing is now entirely restored, and the noises removed. Those residing in New-York who are desirous of further information may apply to my brother-in-law, Capt. William Edwards, at No. 95 East Thirty-fourth-st., who is acquainted with the circumstances of the case.

Deafness, noise in the head, and all disagreeable discharges from the ear speedily and permanently removed, without causing the least pain or inconvenience. A cure in all cases guaranteed where malformation does not exist.

Thirteen years' close and undivided attention to this branch of special practice has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed.

This is to certify that about 18 months ago, I commenced using STERLING'S AMBROSIA. My hair was short, thin, and rapidly falling off. I had tried many Hair Tonics, Invigorators, &c., without receiving any benefit. Soon after using the Ambrosia, my hair ceased falling out, and commenced growing so rapidly as to astonish me. Now my hair is thick, soft and glossy, and is five feet and four inches in length—when let down reaching to the floor. This wonderful result I attribute solely to the use of STERLING'S AMBROSIA, as since I have commenced using it I have applied nothing else to my hair.

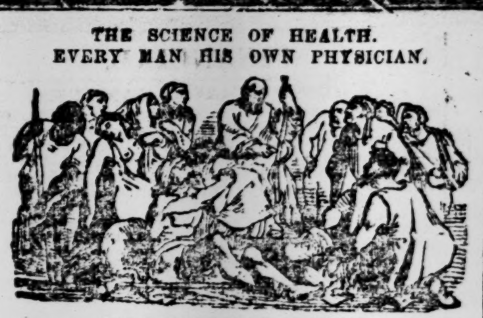
THE SCIENCE OF HEALTH.
EVERY MAN HIS OWN PHYSICIAN.



HOLLOWAY'S PILLS
AND
HOLLOWAY'S OINTMENT.

DISORDERS OF THE STOMACH, LIVER AND BOWELS.

The stomach is the great centre which influences the health or disease of the system—abused or debilitated by excess, indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by costiveness, diarrhœa and dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

ERYSIPELAS AND SALT RHEUM

Are two of the most common and virulent disorders prevalent on this continent; to these the Ointment is especially antagonistic; its "*modus operandi*" is first to eradicate the venom and then complete the cure.

BAD LEGS, OLD SORES AND ULCERS.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

ERUPTIONS ON THE SKIN,

Arising from a bad state of the blood or chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

FEMALE COMPLAINTS,

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of females in every condition of health and station of life.

PILES AND FISTULA.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions, Burns, Chapped Hands,
Chilblains, Fistula, Gout,
Lumbago, Merc'al Eruptions, Piles,
Rheumatism, Ringworm, Salt Rheum,
Scalds, Skin Diseases, Swelled Glands,
Sore Legs, Sore Breasts, Sore Heads,
Sore Throats, Sores of all kinds, Sprains,
Stiff Joints, Tetter, Ulcers,
Venereal Sores, Wounds of all kinds.

MUNN & CO'S
ESTABLISHED 1842

During the past twenty years, Messrs. MUNN & Co., in connection with the publication of the WEEKLY ILLUSTRATED SCIENTIFIC AMERICAN, (the only paper devoted to the Mechanic Arts in the country,) have acted as Attorneys for procuring letters patent in the United States and all foreign countries.

They would state that they have acted, during this period, as agents for more than
TWENTY THOUSAND INVENTORS!

In fact, they have become identified with the whole brotherhood of inventors and patentees, at home and abroad. Thousands of inventors for whom they have taken patents have addressed to them most flattering testimonials; and the wealth that has inured to the inventors whose patents were secured through their office, and afterward illustrated in the SCIENTIFIC AMERICAN, would amount to many millions of dollars!

Messrs. MUNN & CO. never had a more efficient corps of draughtsmen and specification writers than those employed at present; and they are prepared to attend to patent business of all kinds, in the quickest time and on the most liberal terms.

For further information, send for a pamphlet which contains the Patent Laws of the United States, and much other valuable information of importance to inventors and all others who own patent property. Also pamphlets of information furnished regarding the Patent Laws of all foreign countries.

Wilson and Son have done business for a number of years.

The Business of Messrs. John Wilson and Son was established in the year 1750, and it is their determination, regardless of expense, to maintain the superior excellence of their manufactures, and thereby sustain the high reputation which they have for so long a period enjoyed.

In the year 1845, Mr. Mathews first prepared the VENETIAN HAIR DYE. Since that time it has been used by thousands, and in no instance has it failed to give entire satisfaction.

The VENETIAN DYE is the cheapest in the world. Its price is only FIFTY CENTS, and each bottle contains double the quantity of dye in those usually sold for $1.

The VENETIAN DYE is warranted not to injure the hair or the scalp in the slightest degree.

The VENETIAN DYE works with rapidity and certainty, the hair requiring no preparation whatever.

The VENETIAN DYE produces any shade that may be desired—one that will not fade, crock, or wash out—one that is as permanent as the hair itself. For sale by all druggists.

PROSPECTUS.

The subscribers propose to commence on MONDAY, the 14th day of September next, the publication of an Evening Paper, under the title of

The establishment of this paper was resolved upon in one of the darkest hours of the Republic, when multitudes were complaining and despondent. In this spirit it is unreservedly pledged to steadfastly support the ministers of the Government in all measures necessary to the complete suppression of the Southern rebellion and the overthrow of all our enemies.

THE UNION will also always be true to the great and prosperous City of Brooklyn; and while laying before its readers detailed accounts of occurrences of local importance, it will watch vigilantly and protect faithfully the interests of all classes, vigorously supporting and seeking to advance all enterprises and institutions designed to promote their welfare.

The subscribers will strive to make THE UNION a first-class paper, a welcome Evening visitor to every Brooklyn home, with reliable general intelligence; concise, comprehensive and authentic reports of Commerce, Trade and Finance, and with a Literary Department well supplied with original and selected matter.

In this belief, they invite the cordial coöperation of loyal men who participate therein, to aid in its circulation and advertising patronage; and while it is intended to canvass thoroughly the city and county, they urge those who wish to begin their subscription with the first number to leave their name and address at the office of publication, No. 10 FRONT-STREET, near Fulton Ferry.

TO CAPITALISTS.

Wanted, capital to complete 20 miles, already graded, bridged, and ready for the superstructure, at the eastern terminus of the Root River Valley and Southern Minnesota Railroad.

This road, 279 miles in length, runs through the best and most fertile portion of the State of Minnesota, and a Land Grant of 3,840 acres per mile is secured to the Company by act of Congress, a large and valuable portion of which will come at once into market on the completion of the above 20 miles.

These lands are readily taken up at from $10 a $15 per acre, and it is believed that, independent of the rest of the line, this 20 miles (from La Crosse, Wis., to Houston City, Min.,) would be immediately remunerative. The lands are free from taxation until resold.

Maps, plans and further information will be given on application to C. W. THOMPSON and T. B. STODDARD Commissioners, at the office of P. M. Myers & Co., No. 1 Broad-st.

Sealed proposals will be received at the Comptroller's office until TUESDAY, September 1, 1863, at 2 o'clock P. M., when the same will be publicly opened for the purchase, at not less than their par, of the whole or any part of the sum of One Million Dollars ($1,000,000) of "Riot Damages Indemnity Bonds," authorized by an ordinance of the Board of Supervisors of the County of New-York, approved by the Mayor Aug. 15, 1863, for the payment of damages for which the County has become liable under the provisions of Chapter 428 of the Laws of 1855, in consequence of the proceedings of the mob during the recent riot.

The said bonds will be redeemable on the first day of August, 1864, and will bear interest at the rate of SIX PER CENT. per annum.

The proposals will state the amount desired and the price per $100 thereof; and the persons whose proposals are accepted will be required to deposit with the County Treasurer (at the Broadway Bank) within five days after the opening of the proposals, the sums awarded to them respectively, including the premiums thereon.

On presenting to the Comptroller the receipts of the County Treasurer, for such deposits, the parties will be entitled to receive Bonds for equal amounts of the par value of the sums awarded to them, bearing interest from the date of payments.

Each proposition should be sealed and indorsed "Proposals for Riot Damages Indemnity Bonds," and the same inclosed in a sealed envelope, addressed to the Comptroller.

The Comptroller reserves, as usual, the right to reject any or all the bids, if the public interests should require it.

PRIVATE DISEASES CURED IN THE shortest possible time, by Dr. WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. Dr. WARD, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and expense than any one can or will, and those who have been robbed of their money and health, call; it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks. Permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No 50 Lispenard-st., the only place. Call, send for a circular, or write.

SURE CURE—BY DR. POWERS, SUCCESSfully consulted with Dr. WARD, No. 50 Lispenard-st. Conducted on the plan of the Hospital des Veneriens, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa gleet, strictures, ulcers, tumors, cancers, secondary and constitutional syphilis, diseases of the kidneys, &c., &c. Thirty years of extensive practice, exclusively devoted to the treatment of those complaints enable us to effect cures in cases where others of less experience have failed. Dr. Powers' Essence of Life restores the vigor of youth in four weeks. This marvelous agent restores manhood to the most shattered constitution—physical disqualifications, impediments to marriage, thereby speedily cured. The men to consult, Drs. Ward and Powers, the champions and kings of venereal diseases, possessing the most certain, speedy and only effectual remedies in the world, guarantee a perfect cure, or no charge, in from one to three days. Established in 1840. N. B.—Those who have used their preventives are never without. Send for a circular. To Ladies.—Dr. Powers' Periodical Drops are a safe and certain remedy for monthly irregularities. The above remedies sent by mail. The afflicted should read their circular. Postage free, on receipt of a stamp. Cures warranted.

MANHOOD AND THE VIGOR OF YOUTH regained in three days by Dr. POWERS' ESSENCE OF LIFE. This wonderful agent restores manhood to the most shattered constitution, radically curing Seminal Weakness, Sexual Debility, and impediments to marriage generally; Nervousness, Mental and Physical Incapacity, resulting from self-abuse, &c. The time required to cure the most inveterate case is one week. Failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. D., No. 50 Lispenard-st., between Broadway and Church-st., New-York.

A PHYSIOLOGICAL VIEW OF MARRIAGE—Containing nearly 300 pages, and 150 fine plates and engravings of the anatomy of the sexual organs, in a state of health and disease, with a treatise on self-abuse, its deplorable consequences upon the mind and body, with the author's plan of treatment—the only rational and successful mode of cure, as shown by the report of cases treated. A truthful adviser to the married and those contemplating marriage, who entertain doubts of their physical condition. Sent, free of postage, to any address on receipt of 25 cents, in specie or postage-stamps. Address Dr. LA CROIX, No. 31 Maiden-lane, Albany, N. Y.

DR. LEWIS' CELEBRATED REMEDIES are mild and effectual in their operation, require no restraint in diet, loss of time or hindrance in business, possessing the power of eradicating every symptom of disease in its worst stages. One trial will convince the most skeptical of their surprising properties. Slight cases cured in two days, or prevented, if application is made in time. Office No. 7 Beach-st., between Varick-st. and West Broadway, New-York. Rooms arranged so that the patient sees none but the Doctor. Consultation and advice gratis. Charges moderate.

IMPORTANT TO THE MARRIED AND THOSE ABOUT TO BE MARRIED.—Dr. A. M. MAURICEAU, Professor of Diseases of Women, has just published the 160th edition of the valuable book, entitled "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION," strictly intended for those whose health or circumstances forbid a too rapid increase of family. Price $1. Sold at his office, No. 129 Liberty-st., New-York; or can be sent by mail, free of postage, to any part of the United States and Canada, by inclosing $1, and addressing Box No. 1,224 New-York City. DR. WARD'S MAGICAL INVIGORATORS, IN the form of Pills, will, in fifteen minutes after being taken, make the recipient as vigorous as if nature had never been retarded or debilitated. To the unmarried or single, in every physical exigency, this unrivaled medicine is earnestly recommended as a complete restorative of the nervous system where manhood has been impaired. Procured of Dr. WARD, No. 50 Lispenard-st., between Broadway and Church-st. Call or send for circulars.

SOMETHING FOR EVERY LADY.—DR. WARD'S Great Female Benefactor or Golden Regulating Pills. Infallible in correcting, regulating and removing all obstructions, from whatever cause, and they will never disappoint the anxious patient. Office No. 50 Lispenard-st., near Broadway, where Dr. WARD can be consulted, confidentially, day and evening.

DR. POWERS' PERIODICAL DROPS are designed for both married and single ladies, and are the very best thing known for the purpose, as they will bring on the monthly sickness in cases of obstruction from any cause, and after all other remedies of the kind have been tried in vain. Expressly for obstinate cases. Warranted as represented in every respect, or the price will be refunded. ☞ Beware of imitations! Purchase directly of Dr POWERS, 50 Lispenard-st., New-York.

DR. WEST IS CONSULTED DAILY ON all diseases of a secret nature, at his private medical office, No. 27 Duane-st., between Chatham and Centre sts., and insures to those who may wish to consult him a safe and speedy cure, without mercury, hindrance from business or change of diet. Slight cases cured in 2 or 3 days. Office hours from 9 A. M. to 9 P. M.

ADVICE TO LADIES.—IN ALL CASES where infallible medicines are desired, or mode of treatment that never fails, call upon Dr. A. M. MAURICEAU, Professor of Diseases of Women, author of "The Married Woman's Private Medical Companion," who treats female complaints exclusively. Office No. 129 Liberty-st.

DR. JOHNSON, NO. 14 DUANE-ST., MAY be consulted with confidence on private diseases. Thirty years in one specialty enables him to guarantee speedy and permanent cures. N. B.—Those who may have been misled by quack advertisements, nostrums, &c., can call on Dr. J., with the certainty of receiving honorable treatment.

PRIVATE CONSULTATION.—DR. HUNTER has for thirty years confined his attention to diseases of a certain class, in which he has treated no less than fifty thousand cases without an instance of failure. His great remedy, HUNTER'S RED DROP, cures certain diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury, but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless his remedy is used. That is what he claims for it, and what no other will accomplish. Its value in this respect has become so well known that scientific men in every department of medical knowledge begin to appreciate it, for hardly a week passes that he is not consulted by druggists, chemists and physicians in regard to some pitiful patient who has exhausted the whole field of the faculty, and still the disease will appear. Its popularity is so great that there is not a quack doctor in the City that has not attacked it, and when they find their lies are not so easily swallowed, they then pretend that they can make it. It is $1 a vial, and cannot be obtained genuine anywhere but at the old office, No. 3 Division-st. Book for 15 three-cent stamps, 200 pages, 100 colored illustrations. The best work out.

Several of the militia regiments were ordered to Jamaica, but the orders were subsequently countermanded. The officers of the Forty-ninth Police Precinct raised their flag, and fired a national salute with a ten-pounder in their possession, in honor of the veterans who passed their Station-house on the march to East New-York.

JAPAN,

"AS IT LIVES AND MOVES—AS IT EATS, DRINKS, DRESSES AND SLEEPS—AS IT RIDES, WALKS, JOKES, BATHES AND GOES TO THE PLAY—AS IT BUYS, SELLS, DIGS, SOWS AND REAPS."

HARPER & BROTHERS, NEW-YORK,
PUBLISH, THIS DAY:

THE CAPITAL OF THE TYCOON; A Narrative of a Three Years' Residence in Japan. By Sir RUTHERFORD ALCOCK, K. C. B., Her Majesty's Envoy Extraordinary and Minister Plenipotentiary in Japan. With Maps and Engravings. 2 vols. 12mo, Cloth, 3$.

It abounds in graphic descriptions of life, manners and scenery. Language, religion, domestic manners and habits, all have their place. * * The author has not neglected to give us those minute and delicate touches which present the scenes depicted forcibly to the mind's eye of the reader.—*London Reader.*

The pictures of Japan as it lives and moves—as it eats, drinks, dresses, and sleeps—as it rides, walks, jokes, bathes, and goes to the play—as it buys, sells, digs, sows, and reaps—are most tempting and very capital pictures they are. . . We have not previously had a book like this on Japan. As a narrative, it is excellent; and as containing the results of large observation and close study among a strangely-interesting people, it possesses an importance for all thinking readers.—*London Athenæum.*

We have reason to be thankful for the amusing details and the graphic sketches contained in "The Capital of the Tycoon."—*London Examiner.*

All things, small and great, native feudalism and European discomforts, the tricks of the Tycoon's Government and the drift of English diplomacy, Japanese women's immodesty and European merchants' aggressiveness, the system of agriculture and Japanese toilettes, the policy of the oligarchy and native caricature, all are described with a fullness which leaves on the reader's mind the impression of acquiring exhaustive knowledge. The author's style is clear and simple, his mind has few prejudices, and he has a pictorial power easily and incessantly applied. His book will be read with almost excited interest.—*London Spectator.*

Peterson & Brothers, of Philadelphia, on the 22d of August, called "Shoulder-Straps: A Novel of New-York and the Army in 1862." That the said book is in all respects new and original: that all the characters and incidents in the said book are entirely of his own invention, except such of them as are drawn from real life; that not one scene, incident, character or expression, is taken from or identical with a book called "Tactics; or, Cupid in Shoulder-Straps," as has been falsely charged; and that all and every accusation made against the originality and integrity of the book, by mistaken or malicious persons, is false in every particular.

IODINE WATER:

A SOLUTION OF PURE IODINE IN PURE WATER.

IT ACTS UPON THE

HEART,

LIVER, KIDNEYS,

DIGESTIVE ORGANS, AND GLANDULAR SYSTEM,

AND HAS GREAT CONTROL OVER

SCROFULOUS AFFECTIONS.

It dissolves metallic mercury and all the mercurial compounds which can possibly occur in the living body.

AS A TONIC,

its operation is evinced by strengthening the digestive organs and increasing the appetite. In cases of Dyspepsia, Emaciation and Debility, an increased nutrition of the body is the result of the employment of Iodine Water. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.

The unparalleled success in private practice and the indorsement of

HIGH MEDICAL AUTHORITY

enables us to recommend

IODINE WATER

as a specific cure for the following diseases, viz.: Scrofula in all its manifold forms, Consumption, Cancer, Bronchitis, Heart, Liver and Kidey Diseases, Rheumatism, Neuralgia, Nervous Affections, Female Weaknesses, Dyspepsia, Syphilis, and Mercurial Disease.

Full directions accompanying each bottle.

Price $1 per bottle; $5 per half dozen. Sold by Druggists, or sent by express on receipt of price.

All consultations free. DR. H. ANDERS & CO., Physicians and Chemists, No. 428 Broadway, N. Y.

CERTIFICATE OF ANALYSIS.

I have analyzed the "IODINE WATER" prepared by Dr. Anders, and find it to be a solution of pure Iodine in water. It has long been a desideratum to prepare Iodine so that it can be administered in its uncombined state; this preparation by Dr. Anders enables us to effect that object. Each fluid ounce of the water contains about half a grain of Iodine. I consider it a valuable preparation, and one which will prove serviceable in all those ases where the use of Iodine is indicated.

JAMES R. CHILTON, M. D., Chemist.

Certificate from Prof. James C. Booth, United States Mint, Philadelphia.

Dr. Henry Anders:

The sample of IODINE WATER tested by me I find to be Iodine dissolved in pure water.

Respectfully yours, JAMES C. BOOTH.

TESTIMONIALS.

Remarks from the *American Medical Monthly*, edited by Edward H. Parker, A. M., M. D., late Professor of Anatomy in the New-York Medical College:

IODINE WATER.—Samples of a preparation with this name have been sent to us by Dr. Anders, of this city, by whom it is prepared. Chemists generally state that Iodine can be dissolved in water, but that the solution is a very weak one, containing in fact only 1.7000 part of Iodine by weight. Dr. Anders states that this is only a simple solution in Croton water, and may be made as strong as ¾ of a grain to the ounce. The preparation is a decidedly brown fluid, with a strong smell and taste of Iodine. When allowed to stand in an open vessel the color and taste both disappear, the remainder being simply limpid water. We have seen a copy of the report of an analysis, made by Dr. Chilton, in which he states that he finds it "to be a solution of pure Iodine in water." It is a question of interest, by no means unworthy of investigation, what may be the therapeutical value of this preparation. If we can in this way introduce pure Iodine into the system, without combination with any other substance, important results may follow. Practitioners should remember this solution when prescribing Iodine.

GENTLEMEN: I have examined your Liquid Iodine or Pure Iodine Water, and find it a pure solution of Iodine, containing a sufficient quantity for all practical purposes, as a remedial agent. I have used it in obstinate cases of scrofula, and can attest its superior value in the treatment of this class of disease. I am fully convinced your solution of Iodine, in pure water, is far preferable to any other form in which it has hitherto been used. Respectfully, yours, &c., E. WHITNEY, M. D.

The August number of the *Bible Examiner*, edited by Rev. George Storrs, contains the following editorial notice:

"IODINE WATER.—In this number of our magazine we introduce to the attention of our readers this medical preparation. We have done so, not for pay, nor because our pages are used as a medium of advertisements—for we have uniformly declined them—but gratitude to God, and a sense of obligation to Dr. Anders & Co., have made us insert the following:

My only son, George F. Storrs, now 37 years old, has been afflicted, for some dozen years, more or less, with painful swellings and inflammations in various parts of his body; oftentimes, seemingly, he was near to death; then a respite for a season, but only for a return of the disease with more violence. For the past three years he has had an open sore on his breast; and latterly one near his collar bone, with ulceration in his throat, that was rapidly increasing, so that dissolution appeared inevitable. In this condition he applied to Dr. Anders & Co. By the use of the Iodine Water the ulceration in his throat disappeared in a short time. Continuing its use, in less than two months he was apparently healed, and his general health much improved. This son, whom I had feared would fall asleep in death before this Summer should close, is now, apparently, in a fair way to recover as perfect health as is common to our mortal state. In gratitude to God, who has thus answered prayer, and in justice to Dr. Anders & Co., I have made this statement, satisfied that there is virtue in the Iodine Water treatment which the readers of this magazine will thank its editor for bringing to their notice.

GEO. STORRS.

GENTS: I have taken one bottle of Iodine Water, with decided advantage, for a chronic bronchitis of several years standing. Yours, &c.,

A. MANN, JR.,
No. 39 Wall-st.

EAST HAMPTON, L. I., May 10, 1863.

Dr. H. Anders & Co.:

GENTS: The package of Iodine Water came all right. My disease is that of the *mitral* valve of the heart. Before using the Iodine Water a grating sound being very distinct, even so distinct that it could be heard without difficulty with my overcoat buttoned. Now that rubbing sound is not to be heard.

Yours truly,
GEORGE L. LESTER.

NEW-YORK, January 23, 1862

Dr. H. Anders & Co.:

GENTS: It affords me the highest pleasure to inform you that your Iodine Water has entirely cured my son Felix of Chronic Inflammatory Rheumatism. His limbs and his extremities were drawn up, and his heart was so affected as to jar his whole body by its excessive palpitations.
